GENERAL BISSELL'S SUGGESTIONS

He Attacks Certain Publications Which Are Mailed

AS MATTER OF THE SECOND CLASS

and Magazines Could Be Carried Free by Uncle Sam.

Washington, November 25 .- It is seldom that much human interest is found in the pages of the formal annual report of a government officer, but Postmaster Genexception to the rule in his account of the operations of the postoffice department during the past twelve months, which he has just submitted to the president. It contains a number of novel, almost unique, suggestions and recommendations, but these associated with practical ideas and plans that render them of more than ordinary value and tend to incite deeper study their scope and worth.

The postal service naturally comes in closer contact with people generally than and other branch of governmental administration, and this fact alone is sufficient to bring general attention to what Mr. Bissell has to say. Combined, however, with the novelty of his suggestions, the thought of prosiness, which is always associated with the annual report, is overshadowed, and much of importance concerning the branch of the government which acts as the national messenger may be learned without

Bissell's Policy. The policy which Mr. Bissell has outlined

may be briefly given in his own words: "In general," he says, "I would recom mend that the first and most important thing to be done is to revise the law as to second-class mail matter so as to place the postoffice department immediately upon a self-sustaining basis. Second, avoid expensive experiments like the postal exgraph, rural free delivery, etc.; third, develop the postal service on existing lines of administration, viz:

"(A)-Extend free delivery in cities that now enjoy it.

'(B)-Accord it to towns already entitled to it under the law.

"(C)-Quicken railroad transportation. "(4)-Revise and reclassify organization of the railway mail service, and reclassify

erks in postoffices, and, "(5)—Provide for district supervision of all postal affairs by appointment of expert postal officials from the classified service, as recommended in the last annual

Two of the novel features to which reference has been made concern a limitation in the broad construction placed on second class matter and a suggestion as to the selection of the lower grade of postmasters. In the first instance Mr. Bissell puts forward a plan by which legitimate publicaons of the second-class, such as newsapers and periodicals, may be carried free through the mails, and yet leave the government with a surplus instead of an annual deficiency in the maintenance of the postal service. With reference to the postmasters in the smaller offices Mr. Bissell expresses his willingness to endorse any recommendation or plan which will take their selection, with all the consequent bickerings and jealousies, from the hands of the postmaster general; and he makes his ideas so broad on this subject as to leave no doubt that he will favor the suggested popular vote as the means out of the difficulty in cases where there is more than one candidate.

A Day's Business.

To show just how vast is the postal ser vice of the United States, Mr. Bissell has taken another novel method. He has secured from his subordinates and incorpo rated in the report a record of what is actually accomplished in one day, and the table presented gives a better idea of postal business than fuller and more com plicated details. This record of an average lay's business is as follows: Number of miles post route run, 1,100,000; number of stamps manufactured, 8,300,000; number of envelopes manufactured, 1,800,000; number of postal cards manufactured, 1,500,000; number of pieces mailed, 15,700,000; number of letters mailed, 7,400,000; number of pieces of mail matter distributed and redistributed by rallway postal clerks, 27,500,000; number of pieces handled in dead letter office, 24.000: daily transactions in money business, \$1,000,000; daily expenses, \$231 The deficiency in postal revenues ender June 30, 1894, was \$9,243,955. The total revenue derived was \$75,080,497, and the expendi tures \$84,324,414. For the curent fiscal year Mr. Bissell estimates that the expenditures will amount to \$90,399,485, leaving the estimated deficiency of \$5,971,736, and his estimate for the fiscal year ending June 30, 1896 places expenditures at \$91,059,283 and the deficiency at only \$4,151,876.

According to Mr. Bissell's showing, the eficiency for the last fiscal year would ave been much larger if the department had not curtailed the expenses. This was accomplished, however, without any detriment to the postal service, for, as Mr. Bissel says, the postoffice establishment "cannot and should not stop to consider little economies" on account of its duties and obligations to the public, "but must needs exert itself to the utmost to secure the best possible results in the way of celerity, accuracy and security in the dispatch of the mail, and without sparing any reasonable expenditure in that behalf." And to this he ids: "The complications arising from the diroad strikes of the year served only to emphasize the wisdom of this policy

Some of the Abuses. The most important topic in the report treated under the explanatory caption "abuses connected with second-class Mr. Bissell states that, with erve, advertisers, book publishers and ers have taken advantage of the broad construction of what constitutes matter of the second class by sending out their ad-vertisements and publications under the technical disguise of newspapers and peri-odicals, and have thus secured the benefit of the lower rate of postage. He has dis-covered that the abuse has grown so great that it now costs the government eight times as much to carry second-class mat-ter as the revenue derived from it. The Volonstruction of what constitutes matter of ond-class business grew from inds in 1888 to 256,000,000 pounds

in 1833, more than doubling in six years. "Of course," says Mr. Bissell, "no one can believe that such an increase is legitimate," and he adds that it is estimated that during the fiscal year ending June 30, 1894, out of about 451,000,000 pounds of mail matter of all classes carried 299,000,000, or nearly two-thirds, went under the sec-ond-class rates, leaving a net loss to the government in its transportation of

"This calculation," the postmaster general says, "applies to transportation. The separate cost of distribution and delivery I will not attempt to estimate, but any one can see that these items of expenditure would largely swell the loss."

Continuing, he says: "I do not advocate a

change of rates now upon legitimate news-papers and periodicals or magazines. My purpose is to urge the withdrawal of low postage rates from the large class of pretended periodicals that are now improperly enjoying them; not only on account of the inherent propriety of that course, but because I am almost hopeless of ever seeing the financial condition of the department properly established until such withdrawal is brought about.'

In defining some of the publications that secure the benefit of second-class rates, the postmaster general does not mince his

. He says: pretended periodicals are what are now generally known as serial paper-covered books. They are in no sense serial, however, except in name, being usually given some such weneral designation as the 'Fireside Series,' 'The Detective Library,' or some other title of like character. They are nothing but books, pure and simple, and many of them very trashy books at that, each one distinct in itself, the 'series' never being devoted to anything in particu-lar, having few subscribers, and with no real subscription price, except a nominal one, for not one man in a hundred ever would buy any other books. They, in fact, differ in no respect from other books except to a large extent in the lack of literary merit and in having always paper overs. To call these publications periodicals—although the attorneys of some of the publishers, I learn, have gravely insisted upon this claim before committees of congress—is an utter absurdity. They possess not one of the characteristics prescribed by law for the ascertainment of second-class

matter. are they permitted to enjoy second class privileges? The answer to this is that, years ago, in the case of a questionable publication, having some of the features of a periodical, the attorney general of the United States gave an opinion, in passing upon its classification, which opened the door to the admission of other publications still more questionable; until, little by little, precedents were established which the entire class now under consider. ation was eventually let in. And the field is still widening.

"This state of things is not merely a

wrong to the government, and to the send-ers of other classes of mail matter, which, producing a surplus of revenue, are thus unduly taxed, but it is a wrong to the publishers of other books, and, I believe, a sort of debasement of the nation's litera-

Worthless Advertising Sheets. Another class of publications which Mr. Bissell would exclude from the benefits of second-class rates is what he calls "house organ," a paper or pamphlet devoted mainly to advertising some mercantile, manufacturing or other establishment, but purporting to be devoted to trade, claiming a bona fide list of subscribers, and nominally conforming to other conditions of the Still another objectionable second class. publication is the "bogus trade paper," consisting of a lot of advertising circulars, "with a little worthless literary matter thrown in here and there to give the thing eral privilege accorded in the mailing sample copies of second-class matter Mr. Bissell finds an additional abuse. Sample copies are transmitted free through the mails, and he says this practice really offers a premium to worthless advertising sheets and for this reason he is inclined to think that the publishers of meritorious trade papers would be glad to have the sample copy privilege totally withdrawn.

During the last six years the postoffice department has accepted for entry 24,304 new publications purporting to be of the second class. According to a prominent newspaper directory the net increase of newspapers and periodicals during the same time was 3,747 or 15 per cent of the number of entries. Commenting on these figures, the postmaster general says:

"Assuming the directory's statement to be correct, it appears that about 85 per cent of the periodicals entered through the department are ephemeral; that is to say after serving the temporary purpose of their proprietors, the most of them go out of existence, perhaps, however, to reappear when occasion shall again arise. While they apparently complied with statutory requirements sufficiently to secure admission to the mails as second-class matter, it is reasonable to assume that their circu-lation, when in existence, consisted mainly of sample copies. There is also reason to believe that some of them developed into house organs, and were circulated as such long as it served the interests of the publishers, or until their true character

was detected by the department. Newspapers Free in Mails.

Mr. Bissell also states that so far the publications of fraternal, scientific, edu tional, trade, professional, literary and his-torical organizations, admitted to the privileges of second-class matter under the of July 16, 1804, are almost wholly of a mere advertising character and are, therefore, not of the class to which any exceptional privilege should be given.

It is in the concluding paragraphs on this opic of second-class matter that Mr. Bissell makes a suggestion of great interest, particularly to publishers and readers of particularly to publishers and readers of legitimate newspapers and periodicals. This what he says:

"If it be the policy of the congress continue the privileges on second-class rates to benevolent or fraternal societies, then the remedy I would suggest would be an amendment of the law limiting this rate to amendment of the law limiting this rate to them and to legitimate newspapers and le-gitimate periodicals or magazines. I be-lieve that ore year's experience under such limitations with the frauds and abuses checked, would demonstrate that we have already reached the time and conditions when all such legitimates newspapers and periodicals or magazines may be transmitted through our mails from publishers into the hands of subscribers free of any cost." Mr. Bissell makes a strong argument for civil service reform in the postoffice depart-He contends that it should be exdented efficiency has been attained through workings, and that it is a stimulus to be best work. He presents facts and figures to prove these assertions. As a mo radical extension, Mr. Bissell suggests that the lower grade—the fourth class—of post-masters might be included within the benefits of the civil service law.

Memphis, Tenn., November 25 .- A fight occurred at a church near Carrollton, Miss. today between officers and a murderer, and as a result one man is dead and two others wounded. B. F. Challman, the marshal of Carroliton, and D. C. Brewer, deputy sheriff, left today for Enon church ten miles south of Carrollton, to arrest Claude E. Moss, who is charged with mur der at Monticello, Drew county, Arkansas and who had been a fugitive from justice for more than a year. Governor Stone has honored the requisition of the governor of Arkansas and had ordered the sheriff of Carroll county to arrest Moss and deliver him to the Arkansas officials. The officers learning that Moss, who had recently grown bold, would probably attend church at Enon today, left for that point and reached the church just as the minister was beginning service. Moss and his companions were standing near the church door when Challman and Brewer appeared. Moss threw his hand to his hip pocket as if to draw his pistol, when Challman grabbed his hands, and Brewer also grabbed him. Moss, being a stout young man, resisted the officers, when both officers pulled their pistols. They scuffled with Moss until they reached the church door, thirty feet away, when Moss had succeeded wrenching Brewer's pistol from his hand, and fired it once at Challman, but Brewer knocked the pistol up and caught the bul let in his arm, inflicting a serious wound He then rammed Brewer's pistol into Challman's breast and pulled the trigger again and again, but Brewer's hand caught the trigger and the pistol only snapped. His hand, however, was terribly cut. By this time Challman had secured his pistol from Moss's grasp and fired six bullets into Moss killing him almost instantly. There was intense excitement at the church and scores of women fainted.

#### SENATOR WALSH INTERVIEWED As to the Cause of the Decreased Democratic Vote.

New York, November 25.—Senator Patrick Walsh, of Georgia, was at the Astor house today.

"What was the cause of the decreased

democratic pluralities in the south?" he was asked by a reporter.
"Five-cent cotton, I reckon," he replied. "The figures in some of the states, in fact, in many, both north and south," ne con-"show that the actual decreased democratic vote this year was not so great as was the decrease in the republican vote in 1890. The figures show that in many, most of the states, the changes were voted the republican ticket, but because lemocrats stayed away from the polls. At the same time, the result was an over-whelming change. I think this shows with great force that there is all over the country an independent vote which is sufficient to change the result all over the country. Take the result in New York. There are as many democrats in this state as there were two years ago, but there were peculiar conditions and unusual influences. I believe the work of the Lexow committee had an effect, not only all over this state, but in many other parts of the country The exposures made of the Tweed rascality on the party with which Tammany was

#### DEATH OF BISHOP HOWE. He Dies at His Home in Charleston Testerday.

Charleston, S. C., November 25.—Bishop W. B. W. Howe, of the Episcopalian diocese of South Carolina, died at his home in this city at 5 o'clock this afternoon. Bishop Howe was disabled by paralysis about two years ago and at the diocesan convention in the spring of 1895, the Rev. Ellison Capers was elected as assistant bishop, and by Bishop Howe's death becomes the bishop of the diocese.

Are Getting Along.

New Haven, Conn., November 25 .- Fred T. Murphy, the Yale football player who was knocked insensible in the game against Har-vard yesterday, returned to the city tonight in good condition. He will suffer no per-manent effect whatever from the encoun-ter with Mackie's boot, and will play with Yale in the annual game with the Princetons next Saturday. Murphy's body bears no visible marks of the desperate conflict from which he was taken unconscious, and he himself laughs at his experience, terming it trifling in the extreme. Butterworth's injury will also be hardly more serious. He had his lacerated optic dressed tonight by a New York physician and expects to be in playing trim by Wednesday. Jerrems is not likely to be in playing trim for some time, from the effects of a blow on the stomach, but his injury is not serious.

Harvard Men Sore. Cambridge, Mass., November 25.—Harvard men are feeling rather nettled tonight over men are feeing rather hettied tonight over the result of yesterday's game. The men all feel that the Harvard team out-played the Yale team, and but for "that Yale luck" and Umpire Boviard's decisions, the victory would be where it rightly belongs. Dr. Brooks, the Harvard head coach, said tonight that the reports of injuries to the players were greatly exaggerated. Brewer's leg is badly swollen, but not much worse than it would have been from daily practice. Wrightington's collar bone was not broken but just dislocated. Hallowell's nose is badly swollen, but that is the only injury he sustained. He and Wrightington will not play in the Pennsylvania game.

The Associated Press special sent out to Saturday's papers that W. S. O'B. Robinson, judge-elect in this district, is the first

#### BASEBALL MEN. They Will Meet Tomorrow in Nash

ville, Tenn. Nashville, Tenn., November 25.—(Special.) A meeting of southern baseball men will be held here tomorrow to organize the Central League. Atlanta will be the south-ern limit and Evansville or Springfield the northern limit.

The league will be geographically well situated and in five of the cities Sunday ball can be played. Nashville, Memphis, Atlanta, Chattanooga, Little Rock, Evansville, Terre Haute, Lexington, Ky., and Springfield, Ill., will be represented and Decatur, Ill., and Paducah, Ky., will be expected. The men already here are Ollie Beard, for At-lanta; H. F. Schmidt, for Terre Haute; W. H. Stallings, Jr., for Evansville; A. S. McFarland, for Lexington; Messrs. Armour and Rogers, for Memphis; Charles Weaver. for Little Rock, and George Stallings, for Nashville. Each city claims gilt-edge financial backing and the promise is made of the best ball ever played in the section.

#### KNOCKED FROM THE BRIDGE. Three Persons Struck by a Train and Killed.

Cumberland, Md., November 25.—This morning at 9 o'clock a terrible accident occurred at Green Spring, W. Va., eighteen miles east of this place, resulting in the death of Isaac Taylor, aged sixty years; his wife, aged fifty-eight, and a Miss Kidwell, aged seventeen years. They were crossing the South branch bridge on the Baltimore and Ohio railroad, when the New York and Chicago express train, westbound, No. 47, came thundering along at the rate of forty-five miles an hour, and struck the three persons and hurled them into the river below, a distance of fifty feet, killing them instantly. All three were badly mangled, the body of the young lady being horribly mutilated. The engineer said he did not see them until he was in two car lengths of them, and then it was utterly impossible to stop the train.

### AFRAID OF A REBUFF

Emperor William Does Not Send a Formal Invitation.

#### BUT A MESSENGER TO BISMARCK

The Emperor Would Like to See the Prince at the Inauguration

OF THE NEW REICHSTAG BUILDING

Preparations to Celebrate Bismarck's Birthday-Hohenlohe and the Clericals-Foreign News in General.

Berlin, November 25 .- The emperor has caused Prince Hohenlohe to let Bismarck know that his presence would be very welcome at the inauguration of the new reichstag building on December 5th. The person carrying the message to Varzin intimated that the emperor had refrained from sending a formal invitation merely because he was not sure how Bismarck would take it. If Bismarck should refuse the invitation, even on the valid ground of his wife's illness, it was said the general opinion would be that the emperor had been rebuffed and this was to be avoided. As yet no reply to these overtures has come from Varzin.

Dr. Schweninger has been in Varzin since Wednesday attending the Princess Bismarck, whose illness still prevents the family's return to Friederichsruhe. Considering the adverse circumstances at home besides the raw air and fickle winds of the last two weeks, the prince is doing well. His intimate friends say that his health is excellent and his interest in politics is unabated. He watches with intense expectancy the development of Prince Hohenlohe's policy. In his opinion this policy to be successful must be guided along the old lines. Neither he nor Count Herbert Bismarck is known to have anticipated Hownlohe's acts with a word of hostility. Count Herbert, moreover, has disavowed explicitly the "interview" published by The Pall Mall Gazette. He never saw a Pall Mall Gazette reporter, he says, and never accorded such an interview to anybody. Bismarck's Birthday.

The preparations to celebrate Bismarck's eightieth birthday are pressed forward with energy. Birthday committees are forming throughout the empire. In Wurzburg, Munich, Augsburg, Heidelberg, Jena and Stuttgart the deputations have been appointed. The rural villages of Suabia will send a deputation headed by Burgomaster von Fis-

The tide of opposition to the new repressive measure has grown so strong that the defeat of the government seems probable and the prospective dissolution is already a leading topic. Although the exact scope of the proposals has not been revealed, enough is known to stir antagonism in unexpected quarters. The Rhineland clericals have joined the Bavarians in their protest against giving police and judges discretionary powers. Of the whole clerical party only the Prussian Catholics of a strongly conservative bias seem inclined to help the government. As the combined vote of the clerical mapority, the radicals and the social democrats would defea crisis is deemed inevitable. The high tariff conservatives make the most of the situation to claim their pound of flesh. The agrarian Deutsche Tageblatt Zeitung warns the government not to risk an election be fore giving a clear and binding declaration its attitude towards the agricultural "We are convinced," agitators. that the demands of the conservative land owners will prove a great factor in any election. The ministers make a great mistake if they believe the campaign can be fought with only the battle cry: 'Down

with the revolution! The paper here reveals the latest agrarian scheme. The agrarians will enter the new reichstag building as the advocates of a political deal in which they plan to sell their support of the repressive law for govern ment concessions to the grain Since the clericals in south and w to the grain growers many have declared against the repressive law, the value of agrarian votes has risen, and the agrarian deputies feel that they have the cabinet in a close corner.

May Bargain with Them. Meantime the clericals may not prove so irreconcilable as they seem. Hohenlohe has their good will and he may strike a bargain by promising the return of the Jesuits of e revival of the Seedlitz-Truetschler schoo bill, at the same time conceding a few minor points in the anti-revolutionary move-How far Hohenlohe can go in weak ening the Catholic opposition remains to be seen. In any event, the fate of the bill will be known probably within two weeks

after the reopening of the reichstag.

The national liberal newspapers, despite some repugnance toward the proposal to limit popular liberties, admit that the gov-ernment can rely upon the docility of their party. The conservatives alone hall the return to the repressive system as an unnixed good. The semi-official press has thrown out some hints that something may conceded to the agrarian agitators, but no further protection of the sugar interests is probable despite the outcry of The Kreuz Zeitung in behalf of the beet sugar men. The Kreuz Zeitung also suggests that Dr. liquel's new tobacco tax be replaced with an increased duty on beer. The budget scheme is still indefinite, as the new ministry has not found time to debate Dr. Dispatches from St. Petersburg ridicule

The entente covers also the succession to the throne of Afghanistan, in which Russia has pledged herself not to intervene. This is a practical gain for England, as it relieves her of fear of the Afghan pretender, who now will be little more than a subsidized refugee. These matters do not concern Germany, and their settlement causes nei-Germany, and their settlement causes neither satisfaction nor regret here. A Little Family Row.

The removal of the Grand Duke Vladimir from St. Petersburg to the Caucasus is regarded as the result of a family squabble. The grand duke's wife, a Mecklenburg princess, never cabraced the orthodox Greek faith, and she reproached the Princess Alix with Protestant energy for anathematizing her religion. The scene between the two jarred the whole imperial circle. There was a prospect of further unpleasantness if the grand duchess should remain at court, so the czar arranged to keep her and her husband at a distance.

Poish hopes of General Gourko's recall to St. Petersburg seem doomed, as Bonaviski, chief of the Warsaw bureau, has been retired to make way for Gourko's son. The change is regarded as an indication that, far from being shaken, Gourko is stronger than ever. The tenor of all recent news from St. Petersburg is that for the present the czar will hold to his father's ministers.

Protection for Their Cotton. The Novoe Vremya says that the Khokan cotton arbitrage committee has petitioned the government to raise the duty on Amer-

ican cotton, as the Turkestan cotton grow-ers cannot produce at such low prices as the planters in the southern states. The Berlin chamber of commerce has placed before the government a memorial concerning bourse reforms. It expresses disapproval of the project to register all time operators on the produce exchange and advises against the appointment of a committee to control issues of loans. It recommends the issuing of loans through firms held responsible for three years, and advocates the formation of a general court of control or discipline on every bourse. The memorial has been com

Quarrels Between Socialists. The quarrels of the social democratic leaders are without end. Herr von Vollmar, the south German champion, closed yesterday a series of articles denouncing August Bebel and urging the need of party unity. The social democracy, he said, must ely upon principles and not on mechanicism. An agitation controlled by a despotic exec-utive and enforced uniformity of utterance were opposed to the spirit of the party. Both were begotten of the Prussian drill-sergeant methods, which had made Prus-sia's rule hated throughout Germany. Bebel deserved censure trying to thrust such an organization upon the party. The Bavarian social democrats would not secede if moderate councils should prevail in the party. That the Bavarians desired an open rupture was an illusion of Bebel's feverish mind. The Hanoverian socialists have joined in the cry against Bebel. Their organ, The Volks Zeitung, says that if he refuses to subordinate himself to the wellfare of the party, he must be thrown out, as was Dr.

In official circles full credit is given the report that the czar will visit Emperors William and Francis Joseph in the near

#### GENERAL OYAMA'S REPORT Of the Capture of Port Arthur-Los

in Killed and Wounded. Tokio, November 25.-General Oyama, in command of the Japanese forces, officially reports from Port Arthur, under date of November 22d, that on the 21st the Japan-ese forces attacked the forts near that The right division of the army stormed and captured the fort to the westward, with its artillery and parade grounds, at 8:30 o'clock in the morning, and then ad-vanced in the direction of Port Arthur, storming and capturing the Kokinsau fort en route. In the meantime the left divis-ion stormed and captured the forts to the southeast. On the 22d all the other forts were captured.

The enemy fought bravely throughout. The Japanese loss in killed and wounded will not exceed 200, while the number of Chinese killed, wounded and taken prisoners is not yet known. The Japanese captured a great quantity of ammunition and other materials, as well as many cannon, The Chinese forces numbered over 20,000. Another Account.

London, November 25.—The Port Arthur correspondent of the Central News sends this dispatch:

"Marshal Oyama had approached Port Arthur steadily for two weeks with his ar-mies in two divisions. Passage was slow and difficult, as the roads, were any, were poor, and the artillery could be brought forward only after the prisoners had prepared the way. The vil-lages were almost empty of supplies. Many of them had been plundered bare by the

Skirmlshing began on November 1/th.
Every fort had heavy artillery, which was used with effect. The large Krupp guns at Hokinsan, apparently were served by skilled artillerists, and were especially destruc-tive. On the evening of the 21st, the Chinese still held eight or nine redoubts on the coast and had twenty guns in working order. The Japanese bivouacked on the hills. Early on the morning of the 22d they began storming the redoubts. They captured Fort Laomu after a sharp fight. The other positions were taken in quick succession without heavy losses to the Japanese. Eighty guns and an enormous quanity of rice were taken. It was wholly a land fight. The course of events was signaled to the Japane

Admiral Ito's Report. From Tokio the Central News hears that

Admiral Ito sent this report yesterday:
"Port Arthur was taken on the 22d by
the army alone. The united squadrons the army alone. The united squadrons merely attracted the attention of the enemy's seaward batteries. Since yesterday I have been removing the torpedoes from the mouth of the port, dock yard and arsenal. The ships in the port are handed over to the naval department. The dock yard and arsenal are in perfect working order."

The Tokio correspondent remarks that Admiral Ito neglected to specify more closely the ships captured, and he denies the report that there was a naval battle. It is believed that there was a naval battle. It is believed he says, that the ships in question are Chinese warships which took refuge at Port Arthur after the battle at the mouth of the Yalu, and, aithough fully repaired, dio not venture out again. Unofficial news is to the effect that Admiral Ito did not take part in the attack because the entrance to the port was studded with torpedoes, and all the usual landmarks for the guidance of pilots had been removed.

A dispatch boat has left Plag Yang injet for Port Arthur to convey the markets.

Alabama Legislature Has Passed Over Three Hundred Bills.

PRESENT LEGISLATURE A STRONG ONE

It Has Several Hard Problems to Tackle State Finances in Bad Shape. Owing to Depression-Other Gossip.

Montgomery, Ala, November 25 .- (Special.)-The general assembly of Alabama has got down to work with a vengeance. Only a fifth of the session has passed and more than 300 bills have been presented to the house alone. The senate has done its part and while a large number of bills been presented to it, this dignified body is up with its calendar to date. It is apparent that the house will be compelled to hold afternoon sessions, commencing

probably this week. There is no question but that the present legislature is the strongest that has been assembled in Alabama for years. Some very knotty problems are to be determined, as the message of the governor of Alabama, presented to the body when it assembled here denoted. The state's fluances are in awkward shape-due to no mismanagement on the part of the present or preceding administrations, but due entirely to the depression in values during the past two years and the reduced revenue from taxes resulting therefrom. It is apparent that some steps must be taken, either to increase the tax rate, or, better still, to require the more correct and equitable assessment of property. An enormous quantity of property in this state escapes taxation entirely and almost all of the balance is assessed at a figure far below what it was worth

during the depths of the depression. A bill has been introduced into the senate, the operation of which is intended to cure this difficulty of assessment. The bill pro-vides for a board of assessors for each county, consisting of three members, one to be elected by the board of county commissioners, one to be appointed by the governor and the third to be the county tax assessor. It is made the duty of the tribunal to see to it that property is properly assessed and to make every effort to discover property which has escaped taxation. It is believed that these commissions can be made the means of greatly increas-ing the state's revenue from taxes.

General Assembly Notes. One of the wisest of the new senators is Hon. A. D. Sayre, of Montgomery. He is the author of the Sayre election law which has served to give his name national prominence. It was but natural that President Pettus should have put him at the head of the important senate committee on privileges and elections. He was chairman of a similar committee in the last house. It is stated that Mr. Sayre will offer some amendments to the present election law, intended to cure the slight imperfections that have been found to exist in it. What-ever recommendations Mr. Sayre may make will go a long way toward deciding elec-tion methods for Alabama. Senator Sayre promises to follow close in the footstaps

of his idustrious uncle, Senator John T. Morgan, as a lawmaker. Mr. Hill, of Montgomery, has a bill in the house which provides that a liquor dealer who sells on credit any quantity of liquor less than a quart shall have no ecourse for collecting for the same whether on note or otherwise.

A bill has been introduced by Mr. Ott

providing for the organization of the elevjudicial circuit, to comprise the coun-of Lauderdale, Lawrence, Colbert, Franklin and Marion. Two terms of two weeks each per year to each county are provided for by the bill, as also is the apprintment of a judge for the circuit by the governor and the election of a solicitor by the legislature.

One of the most influential members of the house is Mr. D. J. Meador, of Marengo. He is young, aggressive, bright and full of energy. Speaker Clark made a wise head of the appropriation co

It is universally conceded that neither body of the legislature contains a stronger member than Colonel S. W. John, of Jefferson. He is at the head of the foremos committee in the house-the judiciary-and everybody agrees that he is the man of all others for the place. His committee is an

exceptionally strong one.

One of the liveliest committee scraps of the session was that over the bill of Mr. Kyle to abolish the city court of Decatur. In the contest for the nomination for representatives in Morgan this court question was a ruling issue and Mr. Kyle and his associate were elected on the anti-city court platform. Hence he urged his bill vigor. Mr. Cunningham, the present solicitor of the court, was equally as getic in his opposition to the bill. tions a mile long were submitted. The committee on the revision of laws reported the bill to abolish favorably and the fight will now be renewed before the house and then

#### FOUR OF THEM SHOT.

A Row Growing Out of the Arrest of Liquor Dealers.

Birmingham, Ala., November 25.-(Special.) Yesterday afternoon Deputy United States Marshals A. T. Woods and A. P. Mc-Clellan went out to Brookside, a large mining town, to arrest a number of retail liquor dealers who were known to visit that place and do business every payday. The mar-shals had arrested four of these liquor dealers and were standing beside the commis-sary of the Sloss Iron and Steel Company planning to arrest a number of others who were known to be near that place. The officers moved off and in a few minutes Stable Boss Laurie McDonald, Storekeeper Stewart and two or three miners were standing on the spot just vacated by the

Without a word of warning a volley of shots rang out, which was followed by two or more heavy discharges from shotguns, pistols and Winchesters. Some of the men who were fired upon happened to be armed and returned the fire. In the fusiliade Mc-ponald was fatally wounded being shot in Donald was fatally wounded, being shot in the head. A Citizen of Chattanooga Mentally Deranged.

Chattanooga, Tenn., November 25.-(Spe cial.)—In a physically weak and mentally deranged condition J. C. Henderson, of one of the best families in this city, strayed from his home on Thursday last and has not since been seen. Several years ago Mr. Henderson was stricken with fever, which left him so broken in health and mind that he never recovered, but he has never before made an attempt to get away. All yesterday his friends, who are among the wealthiest men in the city, have been searching for him in the courtry surrounding Chattanooga, but without success. It is feared he has perished.

Fire in Kansas City

Kansas City, Mo., November 25 .- Fifteen residences occupying the square be-tween Twenty-tinth and Thirtieth streets and Garfield and Euclid avenues were com-pletely destroyed by a fire which broke out at noon today. Most of the houses destroy-ed were costly structures and were located in the most aristocratic portion of the city in the most aristocratic portion of the city.

The household goods were also destroyed. Some of the occupants of the burning dwellings tried to save their furniture by carrying it out to the street, but the flames were so flerce that the furniture caught fire and nothing was saved. The loss will aggregate about \$85,000 with \$40,000 insur-

CONVENES TOMORROW.

South Carolina Legislature-Tillman's Retiring Message.

Columbia, S. C., November 25.-(Special.)-The session of the general assembly of South Carolina, which convenes Tuesday, will be by no means so fruitful of new, and, in some respects radical, laws as those of the last four years, during which the strong personality and influence of Gov-Tillman have been so active. In fact, the absence of Governor Tiliman's interposition will make the present session a turning point in the political affairs of the state; or, to say the least, there is likely now to be a period of calm law-making anticipatory of the constitutional convention, which will meet next spring or sum-

Governor Tillman's retiring message is sure to be like all of his state papers-interesting, if not sensational. It will doubtless treat fully of dispensary law and contain an elaborate defense of that statute as a temperance measure. It will perhaps also touch upon the Darlington troubles, and, in discussing it, it is hardly probable that his excellency will forbear to administer one of his merciless rhetorical chastisements upon the military who in that emergency declined to co-aperate with him.

The first business before the two houses will be the counting of the votes for governor. Dr. Pope will appear and that means a vigorous contest, even if it is foredoomed to failure. The doctor is an individual of most dogged pertinacity and he does not hesitate to say that his contest will result in the exposure of startling and gross frauds on the part of the Evans engineers in the recent elections. This contest will possibly consume several days and delay the inauguration of Governor-elect Evans beyond the usual time. The contest, however, can have but one result, and the inaugura-tion accomplished, the routine of legislation will promptly begin. While Dr. Pope still holds out that Governor Tillman has not yet been elected to the senate by a great deal, there seems no ground to predict anything else. In all probability human a perfunctory ballot of the two houses will be taken at an early day and Governor Tillman will be given a vote three or four times as large as his competitor.

Election of Judges. In two circuits judgeships are vacant and they must be filled. In the third Judge T. B. Fraser's term expires, and in the eighth Judge J. J. Norton's. The former is an anti-Tillmanite and the Tillmanites will so treat the latter, which means the defeat of both. Fraser's place will be filled by the legislature with the election of Attorney General Buchanan, a near relative of Gov ernor Tillman by marriage, although he has never been a resident of that circuit. The vacancy for the attorney generalship will be contested for by Assistant Attorney General Barber, Representative Jordan, of Alken, and Solicitor Bellinger, of Barnwell,

For Judge Norton's shoes Representative Breazeale, of Anderson, now chairman of the house judiciary committee, is said to be slated. Nearly all of the measures of Governor

Tillman's original category of reforms have already been put upon the statute books and the present session will be devoted for the most part to perfecting them. Of course the irrepressible dispensary law will come up for a lot of discussion, and here and there the diversity of opinion in regard to it will make itself felt in amendments. The composition of the majority of the legislature will not be, even as a Tillmanite

body, so unanimous as it has been. Until now Illiman was the only leader whom all others followed without question and with touching confidence, but with him eliminated there will be Evans Tillmanites, allilmanites and Ellerbe Tillmanitesthe last named representing a faction who fought the nomination of Evans with some-

Among other probable legislation will be the arrangements and appropriations for the constitutional convention and amending he new county government bill. Then the "dog bill," the divorce bill and a dozen or more matters which always bloom in December with the budding of a new generation of legislative statesmen will come up to kill

Who Will Succeed Pope?

In the senate a pretty fight is on for the successorship to Dr. Sampson Pope, who, as clerk, will call the senate to order. He is not a candidate for re-election. Ex-Senator Bob Hemphill, of Abbeville, who was defeated in the recent primaries; ex-Railroad Commissioner J. A. Sligh, of New-berry, turned down in the late campaign, and Assistant Clerk McCown, of Florence are the candidates. It has been whispered that the sympathy of Tillman and Evans is with Sligh, and if this be true, the race will be between him and McCown

In the house there is also a fight over the clerkship, but Walter Gray, of Greenville, the present incumbent, is almost sure to defeat Editor Koester, of The Columbia Register, who is reputed to be the choice of Gray's opponents.

A New Railway Line from Atlanta to Jacksonville, Florida,

TO BE BUILT BEFORE THE EXPOSITION

It Will Be Direct to Columbus-How It Will Be Run from There to Jacksonville.

New York, November 25 .- (Special.)-The south has been the scene of many big railroad changes this year-changes, however, which concerned only existing lines and did not result in the building of any new ones. In all this shuffling of control Atlanta has been the recipient of as much benefit as any

southern city, but now comes a rumor that

means infinitely more to Atlanta than any

of the changes that have occurred during

the year. It means nothing more nor less than a new direct line from Atlanta to Jacksonville-perhaps to the south Florida coastand it is to be open for travel by the opening of the Cotton States and International

exposition. I have it from a highly creditable source that it is certain to occur. The new line is to be an extension of both ends of the Georgia Midland and Gulf road. That road, now in the hands of a receiver, is to be taken under control by the present owners. reinforced by New York capitalists, and put upon a firm financial footing. The line is to be extended to McDonough, to which place it is now built, to Atlanta, and is to have terminal facilities in the latter city equal to those of any road entering At-This will give a direct route to

Then, according to the rumor which I hear, some line already in existence be-tween Columbus and Albany is to be added to the Georgia Midland and Gulf road, and from Albany to Jacksonville an entirely new line of track is to be built.

This is the rumor as I have it and I do

not doubt its authenticity, although I could not get a confirmation of it from those who are in position to know.

Mr. George W. Parrott, of Atlanta, was

said to be in New York for the purpose of negotiating the proposed change.

I called on him at the Fifth Avenue, where he is stopping, but he was not in. Judge H. B. Tompkins, of Atlanta, is also here, and it is said that his visit may have some bearing upon the transaction. Other Atlantians of means are here, and it is not improbable that they are engaged in perfecting the new plan. However, the runor, unconfirmed by those in position to know, may be set down as practically cor-

While, perhaps, the full details have not

yet been agreed upon, time will show that the rumored change will occur. As will readily be seen, it means a great deal for Atlanta. It means substantially the addition of one more great line and will give a better outlet to all the territo-ry south of Atlanta. The Georgia Midiand and Gulf road is already a line of not inconsiderable importance, but its value will be enhanced ten fold when it is extended northward into Atlanta and southward into Atlantians will at once grasp the importance of the change

THE GYPSY'S WARNING Thrilling Story of the Old Show Times

Sylvania, Ga., November 25.—(Special.)—In the palmy days "Old Siccum" was a kind of paradise for shows and circuses and no show man or magic lantern performer who traveled along the public roads ever slighted the quiet little village among the pines. In discussing its past history the following little episode which created quite an excitement at the time, was related a few days since:

The little village was all excitement over the show that was to take place that night in the courthouse. Though called under the general title of a "show," it was in reality a kind of slight of hand and legerdemain performance that Professor Harris was in the habit of giving every fall in all the little towns in that section of the state. in Screven County.

rope walking was over, night had lamps in the courthouse were lighted The rope walking was over, night had set in, lamps in the courthouse were lighted and the benches were all packed with men, women and children. The professor had performed a few of his tricks and the next thing on the programme was to swallow the dagger. The excitement was great and every one waited in suspense to see the dangerous performance. The doctor was called up and examined the sharp keen next thing on the programme was to swallow the dagger. The excitement was great and every one waited in suspense to see the dangerous performance. The doctor was called up and examined the sharp, keen sword. He declared publicly that it was a genuine dagger and had no secret springs about it that he could detect. Then the professor smiled blandly, threw his head back, opened his mouth, and, holding up the sword with his right hand, inserted the point in his mouth and slowly pushed it down until the handle rested on his lips. As a rule he would let it remain in his throat only a few seconds and would then draw it out again, but this time he continued it longer. It was nearly a minute before those in front noticed that he started to raise his right hand, presumably to draw the dagger out. He got his arm only about half way up, however, when it suddenly stopped, no one knew why. Those nearest noticed that the next moment the man's face turned deadly pale. The people looked on in wonder and thought he was going to show them some new trick. Still they waited and he did not withdraw the weapon and his right hand was yet in that half upraised position, as motionless as a piece of wood. They had never seen him keep the sword there half so long before. His breathing became hard and soun led so loud that he seemed to be strangling for air. The audience grew excited and numbers of the men rose to their feet. With his left hand the professor began making peculiar motions, which nobody, however, comprehended. Everybody was beginning to look on it as a kind of uncanny thing and they wanted to get out. At last he started over towards the spot where the doctor was seated, gesticulating strangely with his left hand. The women and the m.m. too, now thoroughly frightened, fled from before him as if he were a wild lowart. There was a regular stampede for the door and for a few moments pandemonium reigned. They didn't know whether the professor was putting it all on or whether it was genuine, but, anyhow, he was acting so strangely anyhow, he was acting so strangely that they didn't intend he should get near

Amid the tumult and confusion some

one shouted:
"For God's sake pull the sword out of his mouth," and as he said it the speaker rushed for the door.
"The man's dying!" cried another.
"He's crazy," shrieked a woman. "Kill him! In the meantime the professor had lost consciousness and had fallen in a faint against the railing in the courthouse, but was fortunately caught by the physician and the town marshal before he struck the floor. He was making a desponate struggle for breath and his face was livid. While the marshal held his limp form the doctor grasped the hilt and drew the blade slowly out. #### FOUND HIS FATHER.

A Young Man from the West Comer South on a Mission.

Chattanooga, Tenn., November 25 .- (Special.)-A handsome, well-dressed man of about thirty, with a metropolitan air about him, entered Auli's restaurant yesterday morning and asked to be shown directory. He said he was Fred Schall ley, of Lafayette, Ind., and that he was in search of his father. He said that his fath er had left home eighteen years ago, and that no member of the family had ever seen him since except when he dropped on them some thirteen years ago and spent a day with them. He had heard a short time ago that the old gentleman was in the vicinity of Chattanooga and had determired to find him.

After an all-day search yesterday young Schaibley finally learned that his father, Michael Schaibley, had recently been doing some carpenter work and was residing on Carpenter street. A meeting was effected. The father looked in blank amazement at ris stalwart son, whom he last saw as a delicate, pale-faced stripling of eighteen. There was on his part no recognition, and he asked the young man who he was and what he wanted of him. A smile lightened the young nan's face, for he recognized his rather instantly, despite the changed appearance that comes over a man who has seen sixty-one years of life. Suddenly the young man's eyes were flooded with tears; a choking sob at the same moment escaped from the old gentleman's lips; he uttered a cry of joyful surprise, and the next instant the two were locked in affectionate embrace. father instantly, despite the changed

stant the two were locked in affectionate embrace.

A curtain may be drawn over the scene that followed. There were explanations from the father as to his long absence from home. It was perhaps the story of domestic difference born of most trivial circumstances; circumstances which sometimes assume an unnecessarily exaggerated form on account of nothing more than a high strung temperament, but which as frequently form a basis for the sad refrain: "We have drifted apart."

Young Schaibley, whose mother and sisters and brothers reside in Lafayette, and are among the most highly esteemed residents of Lafayette, where they reside in affluent circumstances, will remain in the city several days. He is highly elated over the finding of his father, and says the family will be overwhelmed Ah joy when they, too, learn of his success.

Serious Cutting Affray. Yesterday morning about 8 o'clock Milas Leach and Hugh Montgomery, two negroes, had a serious fight on Hull street. It seems that Leach had heard that Montgomery had been talking about him and this morning sought him out for a

When accused by Leach, Montgomery denied having talked about him and cursed Leach. They nad several words between them and Montgomery stooped down, pre-

sumably to pick up a rock.

As he did so Leach whipped out a pocket knife and made for him. He stabbed him about the crown of the head and raked the knife downward to the right eye, laying bare the flesh to the skull and severing the large artery. Medical aid was summoned and although the negro had lost much blood, it is believed he will recover. Leach was arrested and locked up in jail.

An Old Paper. Mr. Will Long, of this city, has in his possession a copy of The Southern Whig, a paper published here in 1836. It is an interesting sheet, containing the first an-nual report of the Georgia railroad, by its president, Mr. William Dearing. It also dvocated the plan of building a railroad through Towns county and on to Knoxville, a scheme still cherished and advocated by Athenians today. This old paper also contained a notice of the entrance to the bar of Judge Young L. G. Harris, who built up so great a reputation for his business worth and his philanthropies.

He had been waylaid and almost murdered by some unknown, who used a heavy iron pin and fractured the negro's skull. Johnson's clothing was stolen from off him. He has never been able to tell the story. He is at the hospital and will die from the wounds on the head.

A THIRD PARTY CEMETERY, And No Colored Democrats Could Be

Valdosta, Ga., November 25.—(Special.)—
Some people carry their politics a good ways. This is especially true of some colored people. A well-to-do negro, living a few miles north of Valdosta, votes, of his own accord, the democratic ticket. Some days ago his wife lost an infant child, and they went to the negro burying ground in the neighborhood (the land for which was donated to them by a mighty good democrat, some years since gone hence) and began to dig a grave. It is o happened that those who controlled the church and burying ground were third party negroes, and before the little grave was finished a committee of elders waited on the sorrowing father of the dead infant and notified him that no democrat could bury any of his family in that church yard, and he was warned to fill up the hole and depart hence. He was forced to do as directed, and had to seek a last resting place for his child elsewhere.

This is one of the greatest outrages that Buried There.

to seek a last resing place to elsewhere.

This is one of the greatest outrages that has come to light in a great while. Colored people who are thus persecuted for voting the democratic ticket need and ought to receive the full sympathy and protection of their white democratic friends everywhere. And if such cases are reported they will receive aid from their white friends.

And Rode Through the Streets with Their Winnings Pinned to their Dresses. Other Macon News and Gossip.

Macon, Ga., November 25,—(Special.)—Macon is all agog today over the sermon preached at the Mulberry Street church this morning by Rev. Alonzo Monk. Dr. Monk just ripped society up the back. He said Macon was indeed a sporty town. Society ladies went to the races at the recent Dixie fair daily and bet heavily. Not being satisfied with the disgrace of attending races. fled with the disgrace of attending races and betting, they flaunted the money they had won in \$5 and \$10 bills pinned on the lapels of their coats. "They actually drove in their carriages through the streets with nings thus displayed," he ex-"They were your bontons, and if

"I am told that some of the leading women of Macon, matrons and daughters, turn themselves into barmaids in their houses, serving drinks to young men from punch bowls. What young man could resist drink when served by women who had made it with their own hands?" Dr. Monk stated that he had information

that Macon society women drank until they were drunk in their own homes. He had been told that a certain man had said that Dr. Monk only told little stories to create a sensation. Hence the doctor struck an athletic pose, slapped his fists

"Let the man come up and tell me to my face that I do not speak the truth and
I will give the dentist a job."

Dr. Monk paid his respects to ladies who

called it plain gambling. He said Macon

Five hundred people were turned away from Dr. Monk's church tonight. His sermon was most sensational, saying that the average member in Macon of clubs with average member in Macon of clubs with bar attachments was a barkeeper, and that club bars had no more right to remain open on the Sabbath than city barrooms. He had a list of names of people who he says have registered illegally, showing that several of them reside four or five miles from the city. He charged that the city way. the city. He charged that the city government is not faithful and that people are in danger under the present rule. He advocated a standard of morality between men and women, saying that young men attended brothels and then were received with open arms by society laddes, but that a poor oman who had fallen was kicked further down. He said the grand jury would take up seven men who were charged with illegal voting, and concluded by urging every one to join the good government club and oppose the whisky element. #### SENTENCED TO THE SCAFFOLD.

Henry Archer Convicted of the Murder of John A. Jackson.

der of John A. Jackson.

Sylvania, Ga., November 25.—(Special.)—
Henry Archer, the negro charged with
the murder of John A. Jackson at Oliver,
in this county, on the night of May 15th
last, was tried in the superior court here
yesterday. The defendant having no counsel
to represent him, T. S. Morgan, of Savannah, and Judge H. C. Kittles, of Sylvania, were appointed to take charge of
his case. The prosecution was represented
by the solicitor general, Judge Griggs and
Messrs. Oliver & Overstreet. The case
consumed the whole day. The evidence
was entirely circumstantial, but was very
strong and convincing. The jury were out
only about half an hour and brought in a
verdict of guilty, without any recommendation to mercy. This morning Archer was dation to mercy. This morning Archer was sentenced by Judge Gamble to be hanged in private on the 11th day of next January. He was not visibly affected, and in a statement made at the time, attempted to put the crime off upon a couple of other

The crime for which he will soon pay the penalty with his life was the most shocking that has ever occurred in our county. On the night of May 15th last in the town of Oliver, on the Central rail-road, Mr. John A. Jackson, a young man honored and respected by all who knew him, was foully murdered while asleep in a room above his store. The deed was done with a blacksmith's hammer, deed was done with a blacksmith's hammer, which was found on the floor near by covered with blood. Mr. Jackson's trunk was rifled, about \$40 being taken, and his pistol was also stolen. A number of parties were arrested and then turned loose, no evidence being found against them. At last it was discovered that the negro Henry Archer had given a negro in Bulloch county a pistol answering to the description of the one taken from the murdered man's room. Archer was arrested and many other of the one taken from the murdered man's room. Archer was arrested and many other strong links of evidence were discovered, forming a circumstantial chain which has proven him undoubtedly the guilty man.

Gold in the Ground There. Dallas, Ga., November 25.—(Special.)—That there are valuable gold mines in this country there can be but little doubt. There have been thousands of dollars panned out on Burnt Hickory ridge since the county was first settled by the white people. Many have made good wages digging gold there, merely working the surface; and evidently by the aid of modern machinery, backed by capital good money could be made there mining. Mr. W. L. Cochran was in town Tuesday, and exhibited a nugget which weighed forty-seven grains. The nugget was found by a Mr. Beard. Mr. Cochran says that his brother obtained over \$13 worth of the precious metal in a space not much larger than a nail keg, and near the surface. There is evidently a rich vein running through that part of the county, which will some day be worked at a good profit.

How a Georgia Jury Settled and Unsettled a Hog Stealing Case.

Valdosta, Ga., November 25.—(Special.)—Mrv Alex Keel prosecuted Handy Jones for stealing a hog. Being a felony it had to be tried in the superior court. After a patient hearing and thorough sifting of the case pro and con by the lawyers on either side, the jury went out about night to find a verdict, but it did not come as easily as some expected. It hung fire. It was another case of eleven obstinate jurors—so rumor says. About midnight, however, the following was agreed upon by the twelve and duly reduced to writing:

agreed upon by the twelve and duly reduced to writing:

"We, the jury, after mature deliberation and careful forethought, do decide in this case of the State vs. Handy Jones, charged with the crime of hog stealing, do render this, our verdict, viz: That if the said hog still be enjoying the privileges of living on this terrestrial globe, that the said Handy Jones do support the pigs of said sow, if any be born, to the said sow, before or after this verdict."

The bailiff, however, vetoed the verdict, and the jury retired again. About 2 o'clock the following was unanimously agreed upon and submitted to writing:

"We, the jury, in the case of the State vs. Handy Jones, charged with the offense of hog stealing, realizing fully the ennormity of such crime, have deliberated the matter carefully and without malice aforethought, and beg to submit this our preamble in the case:

"2. We doubt if there was a negro in the case.

"3. We are at loss to account for the striking resemblance between the hog spoken of by Mr. Keel and the one talked about by Handy Jones, et al., and are almost forced to believe twins were born.

"We are, therefore, forced to require of the attorneys in the case to produce the said hog in question and obtain from her the information we desire, to make up a verdict."

These preambles and resolutions got no further than the door, as the bailiff again vetoed on the ground that the judge was asleep, and to arouse him at that inhuman hour might result disastrously for the jury—they might have to breakfast with Dave—they might have to breakfast with Dave—Stephens across the street for contempt, so they were pigeon holed in one of the juror's pockets. But at daylight they agreed to disagree finally and for all time, and when the judge reassembled court he allowed a mistrial to be announced.

So Alex Keel, Handy Jones and the spotted pig will figure again in the next court.

#### TERRELL SUPERIOR COURT.

Business Before It Last Week-A City Court.

Dawson, Ga., November 25.—(Special.)—
The first week of Terrell superior courthas resulted in the disposition of a large
amount of civil business and Judge Griggs,
who has presided during the week, has sustained his well-earned reputation for

dispatching the business of the court.
One of the cases involving vast interests was that of numerous creditors against J. M. Mercer & Co., who have become em-barrassed by reason of financial depression and low prices of cotton. The liabilities exceed \$100,000, with a large amount of assets, the exact amount not known. After a fall hearing of both sides Judge Griggs appointed Messrs. A. J. Carver and O. B. Stevens as receivers. The attorneys of the defendant excepted to Judge Griggs's decision and have taken the case for review

to the supreme court.
Judge J. H. Guerry and J. A. Laing, of Dawson, and Hon. J. W. Walters, of Albany, represent J. R. Mercer & Co. The creditors are represented by Messrs. L. C. Hoyle and James G. Parks, of Dawson Louis L. Brown, of Fort Valley; Marion Erwin, of Macon, and Messrs. Hall & Erwin, of Macon, and Messrs. Hall & Hammond and Messrs Payne & Tye, of Atlanta.

Judge Griggs and Judge John L. Hardeman will exchange next week, the former will preside at Macon, while Judge Hardeman will hold court in Dawson, so as to preside in disqualified criminal cases, Judge Griggs having formerly been solicitor gen-

eral.

The criminal docket will doubtless engage the time of the court all during the week, as there are several murder cases to be disposed of and a large number of prisoners are in jail awaiting trial. prisoners are in jail awaiting trial.

It is believed that the present grand jury will recommend the establishment of a city court for Terrell county and the same will be a wise recommendation and one which will be of great public benefit.

for the Mayoralty. Savannah, Ga., November 25.—(Special.)—A meeting of the supporters of the present city administration will be called for Tuesday night for the purpose of placing
Mayor McDonough formally before the

The fight, it seems, will be a square-out one between the administration forces, supporting McDonough, and the anti-administration forces, supporting Alderman Herman Meyers. The Schwarz-Duncan contingent, up to date, does not seem to be in it, although it has been given recognition the appointment of registrars for the ction. The fight will be interesting from election. The fight will be interesting from the fact that the church people are with Mayor McDonough on account of his strict anti-Sunday barroom policy, and the liquor men are on the other side appealing for

#### COBB'S DEMOCRATIC PRIMARY. A Close and Exciting Race for Coun-

ty Offices. Marietta, Ga., November 25.—(Special.)— Yesterday was the day for holding the democratic primary election for county of

ficers, and, as is nearly always the case, the race was close and exciting. The result for sheriff and collector is not absolutely certain, but it is generally accepted as true that the following ticket has been nominated: Clerk superior court, W. R. Montgomery; for sheriff, T. J. Davenport; for collector, Joe Murray; for receiver, W. N. Grist; for coroner, M. A.

These will now have to fight the full county ticket put out by the populists.

The race for sheriff was between the two factions, the Glovers on one side running T. J. Davenport, and the anti-Glover, sometimes called the Clay and Anderson side, running the old sheriff, P. O. McLain. According to the best information at hand, McLain has been beaten by about thirty-five majority, and the Glovers are jubilant.

How the Gospel Was Proclaimed in Atlanta Yesterday.

SEVERAL PASTORS AWAY FROM THE CITY

The Methodist Ministers at the North Georgia Conference and the Pres-byteriens at Synod.

The conditions of the weather yesterday morning were such as to fill the churches of the city, notwithstanding the fact that a number of the leading pastors were absent.

in session-the synod of Georgia at Savanah and the North Georgia conference at Rome. A number of the Methodist pastors were at conference while the Presbyterian pasters were absent at synod.

A number of stirring discourses wer preached during the day and the last Sabbath in November was fittingly observed as a day of spiritual rest and devotion. At Trinity.

The congregation enjoyed two splendid ermons yesterday at Trinity at 11 o'clock and again at 7:30, preached by the Rev. W. C. Davis. Rev. Mr. Davis is earnest and impressive, and his sermone were much enjoyed. His text for his morning sermon was John xvii,

17: "Thy word is truth." He said: These words were uttered by our Savior his memorable prayer for His disciples at before His ascension. He prayed for preservation, their purity and for in his memorable prayer for His disciples just before His ascension. He prayed for their preservation, their unity and for the truth—that they might glorify God. He prayed not only for them, but for us—for all who would believe in Him through their word. And he said: 'Sanctify them through thy truth; thy word is truth.'

"The object of all honest investigation is the discovery of the truth whether our

word. And he said. Saidth, the word is truth.

"The object of all honest investigation is the discovery of the truth, whether our inquiries be in the realms of science, religion or history. To the honest historian we are indebted for the truth of history. To the philosopher, the astronomer, the geologist, the world is indebted for the revelation of many precious truths. And as we must be students of history, philosophy, astronomy or other volumes of thought and study, in order to become familiar with the truths taught, so we must be students of God's word if we would know God's will concerning us. As the Bible is the book of all books, God's word is the truth of all truths.

"If we would do the will of God we must know His word. While the secret things belong to God, those things which are revealed belong to us, and they are made so plain that wayfaring men, though fools, need not err therein; study the word; know the truth and the truth shall make you free." The Jews to whom Jesus declared these words, said: "We are free born; we belong to no man," but the Savior said: "Whoso committeth sin is the servant of sin." We should know the truth not only that we may be saved from sin, but from our ignorance and superstition—from fanaticism and from the false teachings of the evil one. We are warned against the devices of the devil; we are told that, as angel of light, he comes to us and unconscious leads us astray.

"The apostle tells us to try the spirits

of the devil; we are told that, as angel of light, he comes to us and unconscious leads us astray.

"The apostle tells us to try the spirits whether they be of God or not. If we know the world, we can make the test. God is not divided. The holy spirit does not lead in one direction and the word, which is the truth, in another. They go hand in hand. Some misguided people imagine they are so close to God that they do not need the Bible. They imagine that God makes a special revelation to them—that every thought, word and deed is under the direction and inspiration of the holy spirit. They suffer no man to teach them with the word or without it. They are carried away in their delusion, and because they are in a state of intense enthusiasm, ecstasy or rapture they vainly imagine it is necessarily the word of God. All teachings in conflict with the scriptures, that is not in perfect harmony with the word of truth, is false, however much cestasy and rapture attend it. We must know the truth in order to believe it. We are taught that faith cometh by hearing and hearing by the word of God. It is a mistake that we may believe as we please, so long as we are honest and sheere. God has chozen us to salvation God. It is a mistake that we may believe as we please, so long as we are honest and sincere. God has chosen us to salvation through sanctification of the spirit and belief of the truth. How we do dishoner God! We talk about living by maked faith—by simple faith in God's word, like we were doing something wonderful. Isn't the enough? The heavens and the earth shall pass away, but the word of the Lord endureth forever. These expressions show how anxious we are to feel or see something. If our instinct nature can just be stirred how our faith is stengthened! His word without emotion, or feeling, or rapture, or joy ought to be and is, in itself, enough. We walk by faith and not by sight. Let us honor God's word. If a murder is committed in this city and is witnessed by only one man, his uncontradicted testimony will convince the pury and the whole community of the world.

We walk by faith and not by sight. Let us honor God's word. If a murder is committed in this city and is witnessed by only one man, his uncontradicted testimony will convince the jury and the whole community of the guilt of the accused, and he will be convicted and punished for his crime. This is faith; it is basing everything on the testimony of the witness and acting accordingly. Do we cry out for signs and wonders in order to believe the evidence—the word? Do we think we have, done any great thing in believing and acting upon the word of a reputable citizen?

"God's word teaches that the moment we submit to Him, we are accepted. And as long as we submit we retain His favor. Isn't this enough? And yet we want something more than this. We want feeling, emotion. rapture. These are to be appreciated and enjoyed, and if we accept the way of faith they come to us. Being justified by faith we have peace with God through our Lord Jesus Christ. We also have access by faith into this grace wherein we stand and rejoice in the hope of the glory of God, and not only so, we rejoice in tribulation and persecution—the love of God being shed abroad in our hearts by the holy splrit.

"We need to know this truth because the entrance of His words giveth light. Thy word, says the psalmist, is a lamp unto my feet and a light unto my pathway.

"If the Jews had known the truth the Savior would not have been crucified. They claimed to be teachers of the word, yet they were ignorant of it. Thy did not see Jesus as the Messiah, though all the scriptures point to Him. They thought they had eternal life, but were mistaken, and Christ said unto them: 'Ye will not come unto me that ye might have life. Search the scriptures point to Him. They thought they had eternal life, but were mistaken, and christ said unto them: 'Ye will not come unto me that ye might have life. Search the scriptures and know the truth, that with the psalmist We may say. Thy word have I hid in my heart that I might not sin against Thee.' This grand book teaches us al

ject of Dr. Hawthorne's discourse yesterday morning.

Text—"We are made a spectacle unto the world, and to angels, and to men."—First Corinthians, 4, 9.

"Paul is here speaking of the persecutions to which he and Apollos were subjected. He says they were reviled, defamed, buffeted and 'made as the filth of the world,' and 'the offscouring of all things.' To the woes of persecution were added the pangs of poverty. We hunger and thirst, and are naked, and have no certain dwelling place.' But he is greatly comforted and strengthened by the thought that God had a great purpose in all the persecutions and suffering that He permitted to come upon them.

"To the suffering Christian it is not strange that Christ suffered. Having come into the world to bring not peace, but a

sword. He could not escape suffering. In-lagonizing the world at every point, to could not fail to provoke its wrath. And it his disciples breathe His spirit, illustrate His virtues and continue the work which the began, how can they hope to escape per-

His virtues and continue the work which He began, how can they hope to escape persecution.

"There is a pride in the heart of every corrupt man which rebels against the superiority of every virtuous man who comes into his presence. He is irritated by the superior influence of the virtuous man. He is angered by every tribute to his high moral character. He broods over the contrast between his own rottenness and the integrity of the upright man, until he is thoroughly wretched; and then he seeks relief by giving vent to his feeling in some act of persecution. He finds that the most bonvenient and easy method of persecution is to lie. He puts out on the community a villainous slander, which he hopes will lacerate the heart of the good man, and render him as odious as himself in the eyes of virtuous people. Every man who hates purity is a slanderer. You cannot find a gambler, or an adulterer, or a corrupt politician, or any other moral leper, who does not habitually lie about the best men of the community in which he lives. Every man who gambles will lie about the man who displess the dirty business. Every man who keeps a barroom will lie about the man who displess the dirty business. Every man who stuffs a ballot box will lie about the man who abhors such infamy. Every walking beer barrel, every incurable sot and every bloated, spotted and striped sensualist who exposes his rotting corpus to public view, will lie about anybody who is sober and clean.

"Here I am far from believing in Dr. Parkhurst's theory of inspiration, but I accept, as well nigh infallible, his interpretation of the ethics of the Bible, and of the relation of the pulpit to the business and politics of the world. Only a little more than two years ago he took the position which, with my feebler resources, I have tried to maintain for more than a quarter of a century—that the function of the preacher is to expose and condemn she everywhere, to leaven all thought with the thought of God, and all life with the life of God. The distinguishing feature of my ministry has been a steady and zealogs insistence upon the right and duty of the pulpit to discuss the moral aspects of every commercial, political and social question. I have persistently declared that it is the duty of the gospel ministry to educate the social conscience in reference to everything which effects the moral life of the community. For doing this, I have been censured and condemned by the secular press, and by half of the pulpits of the country. I have patiently endured this opposition in the hope that I should live to see the triumph of the principles for which I have battled and suffered. Thank God, the long locked for day is dawning; it is brightening the eastern sky; 'there is a mist in the valleys, but a radiance on the hills;' the cleuds are turning to amber and gold; and the watchers of the night are crying. The morning cometh!'

"Two years ago Dr. Parkhurst began his crusade against the political corruptions of New York city. Here is an immense city, reaching out arms of evangelization to every quarter of the globe; and yet every step that we take looking to the morning cometh!"

"This daring adventure of the preacher drew upon him at once the attention of the whole country. Like Paul and Apollos he became a speciagle to more the statement of the property of the prop the whole country. Like Paul and Apollos he became 'a spectacle to men and to angels.' What response did New York make to this indictment? There were some of her people who believed it to be true, but the general verdict was that it was only a specimen of the sensational extravagance of a pulpit crank, and did not deserve the serious consideration of soberminded men. This opinion was supported by a majority of the secular newspapers from Maine to California and from the lakes to the gulf. He was held up as a spectacle not to be admired, applauded

by a majority of the secular newspapers from Maine to California and from the lakes to the guif. He was held up as a spectacle not to be admired, applauded and loved, but to be ridiculed, derided and cendemned. In a thousand angry editorials he was denounced as one who had perverted and degraded the functions of a sacred calling, and who was no longer worthy to be recognized as a messenger of the meek and gentle Christ.

"Undaunted by these censures and denunciations, Dr. Parkhurst proceeded to procure the evidence to sustain the charges he had made. He went before the state legislature and secured a committee of investigation. That committee, backed by the authority and power of the state, did its work, and did it well. The result of their investigation was an overwhelming endorsement of every count in the preacher's indictment. Public sentiment and sympathy went over to the support of his righteous crusade, and in the municipal election which followed the outraged and indignant people smote the corrupt and colossal despotism, and it fell; and great was the fall of it. It shook the continent. It alarmed political deviltry everywhere. It has made even the knees of ringsters in Georgia politics to tremble in anticipation of their own approaching overthrow.

"A spectacle unto men and angels! Look at him as he stands there, the serene and majestic standard-bearer of a great and victorious cause. What do you think of him? See its sentiment reflected from the columns of ten thousand newspapers. Everywhere he is declared to be the foremost citizen of the republic, and the ideal hero of the age.

"In the conduct and triumph of this man God has given to the universe visible and

"'Ballot reform! Ballot reform!' is the Ballot reform! Ballot reform!' is the slogan of many a politician who, a few years ago, branded as defamers and disturbers the few men in the pulpit who anathematized the ballot box stuffer, and pleaded for a free ballot and a fair count. What is the secret of their sudden conversion? They have heard from the people. The people have responded to the call of God, as volced by the pulpit, and the office seekers are simply responding to the people.

seekers are simply responding to the people.

"A spectacle to men and angels! It is very inspiring to know that, in the arena of Christian conflict, we are surrounded by a great cloud of invisible witnesses. It nerves us to almost superhuman effort to know that, in grappling with the enemies of God's truth and rightecusness, we are under the direct inspection of an innumerable company of angels. It fills us with ecstatic joy to know that our struggles and heartaches are recorded in heaven, and that our victories are celebrated in the symphonies of celestial harps. Oh, there is unspeakable glory to me in the thought that, when the everlasting gates are lifted up to receive me there."

First Christian Church. First Christian Church

Dr. Williamson is in Nashville holding a meeting in the Vine street Christian church and Dr. R. Lin Cave, pastor of the Vine street church, preached in Dr. William-son's pulpit both morning and evening to large and appreciative audiences.

Dr. Cave is one of the most popular as well as scholarly preachers in Nashville and no synopsis of the two discourses he de-livered in this city would do him justice. The text in his morning discourse was the words of Jesus when He said: "And I, if I be lifted up, will draw all men unto Me." In substance he said:
"This prophecy of Christ of the manner."

In substance he said:

"This prophecy of Christ of the manner of His death is the only known instance where any one had foretold the manner of His death. No man or woman now living is able to tell in what way they will die, nor has any one in the past ever done so. This one fact alone should be convincing proof of the divinity of Christ. He told the Jews while yet He was followed by immense multitudes who were ready to fight for Him if need be, that they would kill Him. That though they were then His friends and followers, anxious to do His bidding, even willing to lay down their lives for Him, yet they could lift Him up. And true to His prediction a short time afterwards these same people called for Barrabas to be released and crucified Jesus.

"What caused so great a revolution in the santiments of the people in so short a time? The people do not change usually so quickly. There are always some who will stand by a popular leader, as has lately been proven in the Ashland district of Kentucky. He told them that when they lifted him up then they would know that he was what he claimed to be. What are the proofs? When He was crucified the veil of the temple was rent in twain, darkness was over the land, an earthquake opened the graves of many who had recently died and they rose from the dead and appeared to Mary after the resurrection of Jesus.

"The wonderful prediction of Jesus, that

that to be a true Christian was to be a little Christ.

At the evening service Dr. Cove delivered another powerful discourse on the first and great commandment found in Mark xli: 30-31

Dr. Cove is an easy, fluent and at times eloquent speaker, a close observer, an earn est pleader, and most happy in his illustrations whether intended to bring out pathos, sympathy or ridicule. There is a tinge of quiet humor in his compositions which frequently assertis itself, but always to decided advantage. This visit to our city has been one of great pleasure to the people worshiping with the First Christian church and he will ever find a cordial welcome to their hearts and homes.

Central Presbyterian.

In the absence of Dr. G. B. Strickler, the pulpit of the Central Presbyterian

church was occupied yesterday morning by Rev. Samuel Evans, the missionary to the Hebrews. The sermon was on the

of his life's work and was an eloquent and able presentation of the subject of Hebrew evangelization. The church was crowded

The divine began his discourse by making a personal aliusion. "I was born into the world," said he "forty-five years ago, and into the kingdom of grace twenty-nine years ago. For a number of years I have been persuaded that my duty, under the guidance of the holy spirit, was to preach the gospel to the Hebrews. If I had followed the trend of paternal heredity I would have been a Presbyterian; if I had followed in the footsteps of my mother I would have been a Baptist. As it is I have fellowed the trend of my inclination, in

would have been a Baptist. As it is I have followed the trend of my inclination, in the privilege of election, and have become a Methodist. I am therefore a Baptist-Presbyterian-Methodist-Hebrew Christian.' In explaining the rejection of Christ by the Hebrews the preacher argued that a want of spirituality on the part of the Jews prevented them from appreciating the spiritual character of Christ's kingdom; but back of this was the unwritten law of the Hebrews, or in other words, the traditions of the elders, collected into what was known as the Talmud. The scriptures were interpreted in the light of this book and they gave it more respect than they did the word of God. He made the point that if the Christian church had not been

and they gave it more respect than they cid the word of God. He made the point that if the Christian church had not been idle during the early centuries that followed the ascension of Christ the entire human race might long ago have been redeemed. In order to convert the world to Christianity it was first necessary to evangelize the Hebrew. This being accomplished, the conversion of the world would follow

low.

At the evening service Mr. Evans continued his discourse and gave a review of the work that had been accomplished by the Hebrew missionaries in this country.

if He was lifted up He would draw all men unto Him is most wonderful when it is remembered that He was rejected of men, a despising Nazarene, deserted by all and nailed to the cross; but in the light of subsequent events it would be more miraculous if Jesus were only a man than to believe Himself to be the Son of God. What do all these churches mean—the asylums, the houses of refuge, all the charitable institutions, all the friendly exchanges between nations, peaceful arbitrations in place of wars, and an the beautiful good feeling in the world, the brotherhood of man and the fatherhood of God, etc. What does it all mean? It all comes from the grand, glorious and noble life and death of the Son of God on the cross.

"The great French writer, Renow, said before he died that all that was needed to restore paradise to the earth once more was for all the people to follow the teachings of the Nazarene.

"Jesus Christ was lifted up by His enemies; we as His followers should lift Him up and hold Him up before the world by living pure and holy lives and imitating His example of helping others in every way we can, and especially by leading others to be true and genuine Christians; that to be a true Christian was to be a little Christ.

#### The North Georgia Methodist Con-

The beautiful and hospitable city of Rome is entertaining the delegates to the North Georgia Methodist conference in her old-fashioned, warm-hearted way. The Romans are glad to have the opportunity of welcoming so many good ethodists within their gates, and the delegates and visitors are delighted with their reception.

It is a notable conference. Among those present are famous divines whose names are loved and honored through out the length and breadth of the land, distinguished laymen who are noted for their piety and gracious charity, and a large number of devoted men and women who have consecrated their best energies to the service of the Master.

It is impossible to look at the members of this conference without seeing that it very largely represents the best brain heart of our people. The speeches and reports of ministers and laymen show that their churches, colleges and societies are flourishing. The preachers all wear smiling, happy faces, and the general tone of the conference is hopeful and joyous. Great progress has been made in missionary and educational work, and, despite the hard times, the financial showing made by various officials is satisfactory and encouraging.

Rome will not soon forget the confer ence, and its members will always have warm place in their hearts for their Roman brethren and friends.

#### New Doctrine for the South.

The Richmond Times, which, we pre sume is an influential newspaper in its part of the country, strikes a note that is both new and surprising. The occasion of it seems to have been a remark made by General Hooker, of Mississippi, to the effect that the issue of bonds now pending is a defiance of congress and intended to be such. The Times quotes what General Hooker said and proceeds to comment on it. We append the following: The actual state of the case is this: A

few years ago General Hooker and many other southern congressmen were most gal-lantly risking their lives in a most deter-mined effort to destroy the United States attempt, and the failure of their efforts resulted in the overthrow of all the settled order of things in the south and in general bankruptcy and insolvency there. Our conquerors have, with what we frankly admit we think very great generosity, allowed us to resume our old places in the union. Now, in our opinion, becoming modesty would require us, under the circumstances, to be content, in national measures, with something of a back seat. Our representatives, however, have taken quite the opposite view. From the time they were admitted to the halls of congress, on probation at best, they have insisted on pressing for national legislation which ans the most serious injury, if not de-uction, to the most important interests of their old conquerors. We do not allude here to the efforts to abolish the tariff, because that is as inimical to the interests of the great body of the northern people as it is to those of the southern people. We refer to such measures as free sliver and an income tax, intended to affect those only who have accumulated property.

Now The Constitution has been fore most among southern newspapers in advising the people of this section to make the best of their situation. It has advised patience, moderation and liberality, and it has opposed and denounced exhibitions of sectional enimosity, both north and south. It has striven to make the reunion of the states something more substantial than the enforced result of an armed conflict. To that policy The Constitution has devoted itself in season and out of season, making, in the seventies, some sacrifices of popularity to the end that the people of the two sections might lay down their prejudices

and come to a clearer understanding. We must confess, however, that the remarks we have quoted from The Richmond Times leave a bad taste in the We are willing to regard with placid contempt the statements that are sometimes made in subservient newspapers to the effect that northern capital will cease to flow here unless the southern people surrender their financial views and permit the eastern Shylocks few in number but powerful in purse-to dictate and control the finances of the country. But when a reputable newspaper of Virginia stands on its belly to say that the representatives of the southern people ought to take a back seat on all questions affecting the interests of the people, we confess to a feeling of surprise and mortification. It is the same as saying to the people of the south that, in deference to the gen-

erosity of their conquerors, they ought to permit the north and east to transact all legislative business undisturbed by comment or criticism from this

If the south is to betray any modesty on this line, it should go the whole length of modesty's demand. If in this direction we are to pay our conquerors any price at all for their generosity, we ald pay the full price without reserve

or stint. We observe, however, that The Times is inclined to hedge on the principle it

lays down. "We do not allude here," to says our contemporary, "to the efforts to abolish the tariff, because that is as inimical to the interests of the great body of the northern people as it is to those of the southern people." But is it modest in The Times—is it just to the conquerors who have been so generous to us-to give an opinion on this important matter? The republicans are the very men who had control of the country during the reconstruction era. They are the very men who admitted the south to the halls of congress on probation at best." These men declare that the abolition of the tariff would be ruinous to their best interests, whereas it is well known that the south has no large interest that would be hurt seriously. Why, then, should The Times lay down a principle with all the solemnity of a professor and then proceed

to tear it in tatters and destroy it? If we owe it to our conquerors to refrain from interfering with their plans and schemes of finance, we are surely under obligations to keep our rebellious hands off their tariff measures, which they claim have built up their manufacturing interests. The people of the south may have their opinion about the tariff, but if The Times is correct in its premisies, they ought, in justice to their conquerors, to keep those opinions to

themselves. In point of fact, the doctrine which The Times sets forth is as pernicious as anything we have seen in print for a long time. We do not allude to the spirit of abject sycophancy displayed, for that is a matter of taste, but to the claim set forth that the south ought to take a back seat in congress and permits its "conquerors" to dictate and control legislation. This doctrine is so new and so extremely vicious that we wonder at the mind that conceived it and at the folly that-temporady, we hope-gave it shape in print. We should be glad to see our Richmond contemporary elaborate this doctrine, which is new to Virginia and to the republic.

#### One Form of Protection.

The bill pending in the Alabama legislature to exempt cotton factories and other manufacturing enterprises from

taxation is one form of protection. Doubtless the bill is favored by many democrats who are stoutly opposed to the protection afforded by a tariff which imposes high duties upon goods and products imported from foreign countries. They are unwilling to have the general government protect our manufacturing industries by means of a high tariff, but they see no objection to state legislation that will protect and stimulate such enterprises by allowing them

to go untaxed. Of course it goes without saying that this form of local protection is a matter which each state has the right to de cide for itself. An old state with wellestablished and profitable factories will see no reason for exempting them from taxation. A new state, however, or a state which is just beginning to build up its manufacturing interests, will naturally take a different view and feel disposed to offer tempting inducements to men of capital and enterprise to start cotton mills and other factories.

Whether it is a just policy to lift the burden of taxation from one class or one interest and shift it to other classes and interests is a big question. One thing is certain-the south needs more factories, and she must have them. We need them to manufacture our raw material, give employment to our labor. build up our towns and create better markets for our farmers and keep within our borders the money which is now made by the distant manufacturers who reap all the profit from our cotton and other products. It is a wise policy to encourage and aid the manufacturers, but whether the proposed Alabama plan is the best one or not remains to be seen.

#### An Old Craze Breaks Out Again.

The Second Adventists are putting in their work in the new state of Wash-

Many people around Tacoma have be come convinced that the United States will be destroyed by revolution and fire inside of a few days, and that the entire world will be destroyed inside of a vear.

Two Adventists are organizing a colo ny at Tacoma to fly to British Columbia before the trouble comes. They say that the United States will be destroyed first, but that all who leave the country will be temporarily saved. Later all the peo ple of the world will be destroyed except 12,000 of each of the twelve tribes of Israel, who will be caught up in the clouds while the earth is devastated, and will afterwards be allowed to return and inhabit it.

The teachings of these cranks have caused many families to destroy their pictures, bric-a-brac and furniture and other articles which they cannot carry off in their flight. The craze is said to be widespread, and the people are very much excited.

It is passing strange that people should give themselves up to such delusions in this enlightened age, but in every generation prophets appear who predict the speedy end of the world, and they always find followers. Any man with the gift of gab who is apparently in earnest can exploit the most absurd theory and find followers who will take

#### A Case for Secretary Gresham.

The slaughter of several thousand inoffensive Christians in Armenia by Turkish soldiers is a crime against the civilized world, and it should not be allowed to pass without some action that will prevent such outrages in future.

It is not the first time that the Turks have offended in this way. In 1592 they butchered 65,000 Christians in Croatia; thousands in Constantinople in 1821; 20,000 the same year in Albaria and Croatia: 120,000 in Chios in 1822: 15,000 in Aleppo in 1850; the entire population of Jedda in 1858; 6,000 in Turkey in 1859; 8,000 in Damascus and othe places in 1860; 10,000 in Candia in 1866; 15,000 in Bulgaria in 1876, and in 1877, 1889, 1890 and this year similar outrages

occurred in various localities. The victims are killed simply because they refuse to renounce the Christian religion. No mercy is shown to either age or sex. The women are turned over the Turkish soldiers to be ravished

then murdered. I strikes us that here is Secretary resham's opportunity. With the active aid of Mr. Cleveland he has boldly interfered in Hawaiian affairs and has attempted to mediate between Japan and China-two cases in which our interference cannot be justified. The Armenian affair is different. When the Turks put to the sword thousands of Christians because they are true to their faith, any Christian nation has the right to protect the persecuted and punish the oppressor. If our government should invite the great powers of Europe to join it in an effort to stop, either peaceably or forcibly, the massacres in Armenia, they would probably make a favorable response, but even if they should take no action, Mr. Gresham and his chief would be applanded by good people all over the world.

It is time for the Christian nations to engage in another crusade against the barbarous Turks, and, if necessary, blot out their empire from the map.

The Sensational Story of Her Flight and Arrest Given for the First Time by the Shrewd Detective.

On one of the little wooden benches in tark corner of the ladies' waiting room at the carshed a very pretty young woman was seated for several hours last night. She wore a large hat trimmed with red. Repentant tears they were, for the young woman realized that she was a criminal, and she was conscious of the fact that she was in charge of a stern officer, who was carrying her back to answer for a serious and sensational crime, to which she had confessed.

The sight of the weeping woman attracted the attention of others who were in the waiting room, and her escort, who proved to be Detective William Francis Holland, The officer when approached was loth to

give the story as it had purposely been kept quiet before. But the fact that the case was in shape and the woman under arrest, induced him to give the sensational "Last Monday Cantain Del Midoso, com-

His jovial nature delighted in the rapture of the dance, and, for some time with the rest of his crew, the jolly captain made the deck merry with music and mirth. Sparkling fluid fresh from La Pelle

France, was passed in abundance. The women, who had been invited used the captain's cabin freely. In his sea chest, which had been left open, was stored a small box containing his jewels. They were the property of his wife who died two years before and the sailor prized them for more than their intrinsic value. In the box was two pair of diamond earrings, a diamond brooch, a diamond ring, with other pieces of jewelry, all of high value.

Upon the departure of the woman the captain was startled to find that the chest was opened and the box containing the jewels missing. He was much excited by the loss, and came to Charleston immediately to report the matter to the detec-

Mr. J. T. Dargan, lately appointed general manager of the southern states for the Imperial (fire), of London, is now fitting up offices on the eighth floor of the Equitable.

Mr. R. F. Shedden, general agent of the Mutual Life, says that although the low price of cotton is bad for the insurance business, still his company was able to secure a \$100,000 polley from an Atlanta man within the last few days.

The Maryland Life is in an exceedingly prosperous condition, and Mr. Jones, the general agent, is doing agood business for the company.

Within the last day or two Measrs. C. M. Fort & Co., agents of the New England Mutual, have moved into their new office, room 209, Norcross building.

### INSTANTLY KILLED.

The Town of Marietta Is Shocked by a Frightful Tragedy.

MITCHELL BOYLES THE VICTIM

Elias Cox the Slayer-A Blind Tiger and

Dissolute Women at the Botton of the Killing.

Marietta, Ga., November 25.—(Special.)— This quiet little city was the scene of a sensational killing on Saturday evening at half-past 9 o'clock. The victim of the homicide was a man by

the name of Mitchell Boyles.

His slayer, as shown in the testimony before the coroner's jury impaneled today, is Elias Cox. Both live in the neighborhood of Marietta and are well known in the county. Ablind tiger and dissolute women are alleged to be the indirect causes of the tragedy.

oting occurred on the west side of the public square and was simultaneously accompanied with the shout of "police! a blind tiger is in town." As the merchants quickly left their customers and rushed to the front of their stores they heard a few curses and saw a man standing between the wheels of a buggy with the curtains all closely drawn around it, while another was in front of the mule, holding the bridle and saying "shoot him, d—n him, shoot him." The next moment the arm of an inmate of the buggy, concealed behind the curtain, made its appearance, grasping the handle of a horse pistol. The next momen a loud report was heard and the victim be tween the wheels threw up his arms, stag-gered and fell to the ground. The whip was quickly applied to the mule and the passed rapidly from the sight of the horri-

led spectators. Soon a crowd gathered about the dead man and the greatest excitement prevailed.

The mother of the deceased, who lives nearly a mile from Marietta on the Powder Springs road, was sent for and hastened to the scene of the tragedy. It was a sad spectacle to see the agonizing mother as she stood over the lifeless body of her

Down on the Powder Springs road, where the old barrel factory used to be, is the recently occupied home of two women— Nancy Morgan and Mary Eans. It was a house of ill repute and blind tiger whisky was also kept there, Large numbers of those inclined to such dissipations learned of the whereabouts of this congenial lo cality and it was most liberally patronized, and the nights were made hideous to the neighbors by the corousals there indulged

Last night Mitchell Boyles and Charley Sanges repaired to this place, and while both, according to the testimony, were pretty full of whisky, they began to be very boisterous, Charley Sanges especially. Soon after they got there a large number of others came, among whom were Tom Jackson, Elias Cox, Bud Covington and many others.

women inside became uneasy on account of the way their visitors were cutting up, nearly all of whom were drink-ing. Nancy Morgan began crying and ordered Mitchell Boyles and Charley Sanges out of the house. They refused to go and she told Cox to make them get out. In the meantime the other woman, Mary Eans, had taken refuge in a closet and locked it from the inside. Tom Jackson followed her and tried to unlock it from the outside while Charley Sanges got a stick of wood and was preparing to beat

Tom Jackson slapped Sanges on the jaw. Boyles took exception to this and the fuss began from it. Cox got them all out of the house and in the street in front of it they house and in the street in front of it the got into a general row, using sticks, rocks and whisky bottles, and anything they could get hold of. In the melee a whisky bottle was thrown through a window of a neighbor's house and the inmates narrowly escaped serious injury on account

Finally the procession moved off toward the square, Tolbert Wallace driving the mule and the rest, including Cox, following along and keeping up the quarrel. From the testimony rocks were rather used to give emphasis to what was said. When they got near the railroad crossing on Powder Spring street, Willy Evans, half brother the and R. E. Edwards, met them, and se deceased, relative, met them, and seeing that the deceased was about to fight followed along to prevent it and if possibl persuade Boyles to go home. Their efforts were unavailing. When the party were crossing the railroad track Cox snapped his pistol at Boyles, but it failed. When they got to the store of Anderson Bros. at the entrance to the square Cox knocked Boyles down with a stick, which seemed to have the effect of adding fuel to the fire.

Shortly after this Cox got into the buggy and then when they reached the store of Reid & Wiggins Boyles cried for the police and said there was a blind tiger in town and the loud report of the pistol was heard as stated. There was some talk about whisky being in the buggy, but no very pointed

evidence was developed to this effect.

After driving off Cox drove rapidly into Cherokee street and out that till he got to the residence of Tom Ogles, beyond the branch. He called for Ogles. A man by the name of Mashburne ran to the street and Cox exclaimed that he had killed a man up town who had thrown a rock at him, and wanted Ogles to take charge of his mule and buggy while he went back and gave himself up. He held the rock he said had been thrown at him in his hand, while he carried the pistol in his left, and unloosed it to show the empty cartridge for the bullet he had shot. He never gave himself up, but his friend Jackson said that he was at his father's home in the outskirts of town about daylight this morn-ing and still had the pistol in his hand. Jackson gave himself up and was put in jail this morning. The two women were also arrested and are in custody. Vigorous efforts were made to catch Cox all nigh

last night, and the officers are still doing all they can for this purpose, but so far they have no further clues to his whereabouts than as stated above. He is a mar of medium height, sharp Roman nose and unusually piercing eagle-like eyes—just such a man as one would expect to shoot if cor

BALL ON THURSDAY.

Officers at Fort McPherson and the

Thanksgiving Day will show a good game of football in Atlanta.

On that day the officers at Fort McPherson and the Technological team will meet at Athletic park. Both teams have been hard at work for several days and when the day for the game comes they will line up in good shape and the game will be an interesting one.

The Techs have strengthened their team and are in better condition than ever.

The team will be about the same as last year—the one that won the championship of the state. Park Howell, one of the best full backs outside of the "Big Jam," will be in the same position which he filled so well last year. House, who was with the Techs last year, will also be with the team. He is one of the finest tackles in the south. William Greene Raoul, Jr., who played on the Lawrenceville school team in '89, and captained his class team at Steven ir stitute, will play left half back. Redding, Auburn's old tackle, wait play left guard. J. W. Raoul, the Tech captain, will play his same position at end.

The Techs' defeat two weeks ago has helped the team greatly and has been of much benefit, as the boys have got down to work and have trained harder than ever, and with such players as Howell and Raoul behind the line and Forrest, House and Redding in the line the team that goes in the field The Techs have strengthened their team

The team from Fort McPnerson is composed of the officers of the fort—officers and men who have had experience in football. Among the players will be found Wood, who needs no introduction to the public; also Captain Romeyer, who was captain of the Tulane team last year, and Heavey, who has played on West Point. The team has been under the supervision of Dr. Wood for the last three months and is in fine condition. Johnson, who was quarter back in the Sewanee team of '93, will be found in that position on the Fort McPnerson team. In a practice game between the Techs and officers several weeks ago the score was 4 to 0 in favor of the officers. However, the Tech team for Thursday will be made over and they will be found no snap, even for another Auburn.

The game will be witnessed by a large crowd, as Thanksgiving is a day off, and the people love a good game of football. The Techs team will be composed of The Techs team white these players:

### SATURDAY'S SURPRISES.

Athens' Skillful Tackling That Was Too Much for Auburn. The great game Saturday between Athens and Auburn, which was witnessed by nearly two thousand enthusiastic lovers of the Rugby sport, demonstrated the fact

that often their are a great many sur-prises wrapped up in the dusky canvas jackets. On all sides one hears the old-time parable of the "if" and the innumerable phi losophies which result from such liberal transpositions of the natural order of

That regrettable "if," which in this particular case represents the eleven stal-wart athletes from the Georgia university, was all that prevented Auburn from scalp ng the supporters of the red and black.

It is not a characteristic of the highest for one to disparage a clean victory in any

athletic contest.

The bald fact stands out that Athens won in the fairest manner possible and solely on their intrinsic merits. The Alabamians went on the field reasonably confident of a decided victory, for the very reason that their advantages had been vastly superior to the Athens team's. Au-burn has had an eleven on the field now for several years and by dint of hard training has won victories from some of the strongest teams. Now, it is recognized that with a well established system of athletics comes a certain amount of in-domitable confidence, which is the greatest inspiration to an athlete. To put in a condensed form—nothing succeeds like success, and an athletic prestige is one the greatest bulwarks to the perpetuity of athletic supremacy. In all of this Auburn had the advantage of the Georgians. Then again the former team had encoun tered several very strong elevens, which is incalculable in giving the men experience-another word for steady nerves. In this line, comparatively speaking, Athens was somewhat on the score of a novice,

consequently their victory is all the more worthy of celebration. There was a good deal of bum-fumbling on both sides, but in this abomination the Alabamians excelled the Georgia university men. On the part of Auburn this was probably due to the fact that the men went on the field at first with an ex-horbitant amount of confidence in their men went on the field at first with an exhorbitant amount of confidence in their ability to win, but when encountered by stubborn resistance there was instined a certain amount of nervousness. The Auburn men were too impetuous—not content to make their gains by the slow hammering process—but were overzealous for hasty touchdowns. No one can deny the fact that Auburn suffered great loss in trying to work that might be termed rash strategy—off-side plays and holding the men. At a very critical moment in the game, when Auburn was being slid back like a greased eel down a slippery river bank, one of the end rushers for the orange and blue attempted an off-side play that was illitimed, to say the least. Under the new rules it is indeed a poor policy for a player to try to work such a rash play when there is such a heavy penalty attached.

The line-breaking was pretty evenly divided between the two teams, strange as such a statement might seem. Nally, who played center for Georgia, played horse with the Auburn line, when fully aroused; on several occasions he broke through the line like a bowlder through a brush-heap and downed the man with the ball in his tracks.

Athens also found a good thing in the

line like a bowlder through a brush-heap and downed the man with the ball in his tracks.

Athens also found a good thing in the momentum play which they worked through the tackles for long, steady gains, and try as Auburn would, she found it impossible to block the red and black. One point in favor of the Alabama men can be said which shows their great strength, and that was their superiority in a snappy rush of the ball when in their possession. Auburn played with more snap when advancing the pigskin, but in the end it falled to amount to much on account of the horrible fumbling.

Athens displayed greater ability in skillful tackling, which served to put a close shave on all of Auburn's gains. The Georgia men were remarkably accurate in tackling the runners, whereas Auburn would ride for a yard or so invariably.

In giving a brief resume of the game it may be said that Auburn lost the game on costly fumbles, off-side plays and ragged tackling, but in a great many other respects they were superior to their victors. For Athens, cool judgment, fair play, sharp tackling and excellent team work gave the championship to Georgia.

Finally the soldier laid his affections at her feet and told her his deter-mination to make her his wife. To-gether they decided to impart this mination to make her his wife. Together they decided to impart this information to her parents. They dreamed of no interference and their happiness shut out all thoughts of parental objection.

Her father was a wealthy merchant and the young people accosted him in his office, when they imparted to him the tale of love and asked his consent.

He refused with emphasis. They beseeched but he was inexorable and the more he thought of his daughter's leaving him his wrath rose higher and higher. He gave the unlucky suitor notice that he must never visit the young lady again.

Discouraged, but not desparing, Private Taylor went back to his regiment, where he consoled himself with a clandestine correspondence. Then came the order to move and the soldier packed his knapsack with a heavy heart, for the Fifth regiment was to leave for Atlanta next day.

He came from Columbus, but not without an understanding that he would soon see the lady of his choice. Under the circumstances a furlough was not the best thing, as Taylor did not know what might occur if he went to Columbus for his bride. In fact he thought it was too near her father to venture.

What of the Convicts?

Marietta, Ga., November 21.—Editor Constitution: The lease of the Georgia convicts will soon expire. What will the state then do with them—aiready over 2,000 in number and annually increasing: The feeling throughout the state is so strong against re-leasing them that it will never be done

gain. Public sentiment is divided between tw

1. Working the roads of the state. 2. Purchasing a tract of land and put-ting them to work upon it.

The first plan will be attended with so much expense to the state or the counties that I do not believe it will ever be adopted. There remains then but one feasible plan, and that is to purchase a tract of land and put them to work, so that they may be self-suporting and not a burden and every superstance. self-supporting and not a burden and expense to the state. Now my idea is that the state purchase one of the larger islands on the coast (St. Catherine for instance. fifteen miles long and from one to three miles wide) and make of it a convict plan-

The advantages of an island over plantation in the interior are many:

1. The water boundaries absolutely pre-vent escapes, except by the most expert swimmers, few of whom are found among

swimmers, few of whom are found among our convicts.

2. The expense of guarding so large a body of convicts would be very much lessened by the fact that the water boundaries making escape hopeless would deter any from making the attempt.

3. The abundance of food that could be cheaply and easily obtained from the water would very much diminish the cost of feeding the convicts.

4. The climate being milder than that of the interior the expense of housing and clothing the convicts would be less.

5. The islands are peculiarly adapted to the raising of hogs and cattle, the marshes furnishing them food the whole year round, thus insuring a cheap supply of meat.

6. The labor of the convicts, which would be devoted to raising sea island cotton, early vegetables and watermelons, would be more remunerative than in the interior.

I might mention many other advantages equally as great in favor of the island farm, but those presented seem to me sufficient.

If the state should desire to try the ex-

cient.

If the state should desire to try the experiment of working her public roads or draining her swamps with convict labor there could be a detail made from the plantation of 500 to 1,000 able-bodied men, who could be maintained by the labor of the remainder without expense to the state

the remainder without convict question is a rounties.

The decision of this convict question is a momentous one and should be most carefully considered by our legislators before final action is taken.

That Doctors' Bill Discussed. Editor Constitution-Will you please al. low me space in your paper to say a few words relative to Hon. Mr. Fouche's "doc-

House bill No. 76, having for its object the regulation of the practice of medicine in the state of Georgia, has come under my observation. I have read it carefully and must say it is an able document and with the addition of a few amendments, it passed, it would be a blessing to us all. But as it stands now it is wholly a one-

It is a fact that cannot be doubted that the physicians of this state suffer untold injustice at the hands of "quacks" and patent medicine venders. This is unjust to those men who have spent thousands of dollars and many years of hard study in preparing themselves to render efficient medical and surgical service to the citizens of the state. Hence I believe the state should make laws to protect the proficient physician in the pursuit of his profession and to rule the "quacks" and patent medi-cine venders from the state.

I am sorry to say, however, that in the past the state has not treated her physicians—the guardians of the health of her citizens—with professional respect. My reason for saying this is because the state taxes the physician \$10 a year to practice within her borders, and for what? to save the life and protect the health of her citizens. Then the state allows the county and the city to tax the physician again while he is spending his time and talents to protect the health of his city, county and state. The physician does more charity work for the citizens of his state than any other professional man laboring within her

other professional man laboring within her borders, the ministers of the gospel not excepted. Hence I claim to tax the doctors so heavily is unjust.

Then what is the most "unfriendly cut of all" is that while the state continues to heap examination, taxation upon the head of the poor physician she takes pains to make no laws to compel the citizens to pay him for the professional service rendered. Is there any justice in that? I believe with the following amendments to the Fouche bill it would, if passed, prove a blessing to both citizen and physician.

1. Amendment to reduce and regulate the tax a physician should pay in the state, county and city.

2. An amendment to compel physicians to stick to the code of medical ethics and

2. An amenument to compel physicians to stick to the code of medical ethics and thereby stop a patient-stealing habit which is quite prevalent among some of the doctors in the state, and as a result of which the patient is seldom benefited, while neither physician gets any pay for his services. This should be remedied by law.

3. An amendment to regulate the fees of physicians and to compel the payment of the same by the patient or his or her legal executors.

the same by the packet of the sexecutors.

The farmer, mechanic, contractor, banker, and even the common laborer, all have laws which will aid them in collecting debts due them, but the physician, who goes to relieve the suffering through the cold rain, snow and darkness and exposing himself to all kinds of diseases, he has no law to help him to collect his fees. Show me the justice in that.

There should also be an amendment to

him to collect his fees. Show me the justice in that.

4. There should also be an amendment to the bill regulating the price that should be paid to physicians when summoned to attend courts, either as witnesses or to give expert testimony.

As the law stands now physicians are compelled to attend courts when summoned and spend days and weeks away from their patients, undergoing the most rigid examinations, all to prove that Mr. A. did not shoot Mr. B. with intent to kill, or to help some lawyer and his client in winning a \$10.00 suit, while they (the physicians) get nothing.

The present bill, with amendments cover-

The present bill, with amendments covering the above mentioned topics, if passed, would be beneficial to all concerned.

The state is dependent for the health of its citizens upon the physicians, and the physicians are dependent upon the state and its citizens for their support; hence whatever laws are enacted should be intended to benefit all alike and not to crush one in order to elevate the other. Very respectfully,

Some Defects of the Registration Bill. Editor Constitution—With entire respect to the eminent committee reporting it, the registration bill now before the general assembly is radically defective and if enacted by law, aggravate the evils it

In the first place the entire machinery is partisan. In a democratic county the registry list will be under democratic con-trol; in a populist county, under populist

control; in a republican county, republican The system proposed is this:

1. The tax collector is to open a "voters" ook" and receive therein the names of

book" and receive therein the names of all who will take a certain oath.

2. The tax collector, the ordinary and the clerk of the superior court are to prepare a sort of "black list" of persons disquali-fied to vote by reason of non-payment of taxes, crime, idiocy or other constitutional disqualification.

taxes, crime, idiocy or other constitutional disqualification.

3. The grand pury is to nominate, and the judge of the superior court to appoint, three registrars.

4. Ten days before election the "voters' book" and the "black list" are to be laid before the registrars, who are to compare the two, purge out all the black sheep and make up a purified list, which is to be the registry list.

This idea of purgation is, in itself, excellent, but who is to purge the purgators? The tax collector, the ordinary and the clerk will all be of the dominant party in the county. Nine times in ten the grand jury will be the same way, and, as the grand jurors are, so will be the three registrars. The machinery, therefore, is practically a partisan machinery. We want registration to insure fair elections and to insure fair elections; foresooth, put the entire matter of registration in the hands of the local majority!

san, but cumbrous. Why have three sets of officials and three sets of books?

Let each political party in each gounty select one man and let these two select n third man, and let these three be the registrars, and enroll ne man unless, by tax receipts and otherwise, he shows a clean bill of health.

A second and very grievous objection to this bill is that it does not allow enough time for a proper purgation of the electoral list.

The tax collector is to enroll all comers. He has no discretion. The gentleman, therefore, who has taken a contract to register so many men has full sweep. And so has the gentleman who registers himself in a large variety of names, at so much per rame.

large variety of names, at so much per name.

The compliers of the black list are to make up that roll "upon the best evidence obtainable by them."

These two lists, with all their imperfections on their head, are to be dumped in on the three registrars ten (10) days before the election, and in this brief period the registrars are to sift, compare, add, reject, examine "the original papers or books from which said lists were compiled," consider "written evidence or oral testimony," and then decide; and decide in time to have the revised and purified list printed by the day of election.

day of election.
The thing cannot be done. Thirty days is the least time allowed in contested election cases, and a registration is simply a scrutinizing of the vote before, instead of after, it is polled.

The bill has other defects, but as I write ret to carp, or critisise, but only to

not to carp or criticise, but only to suggest, I confine myself to such only as are fundamental. No one-sided system of registration can

No one-sided system of registration can command respect; nor can any system, however excellent otherwise, accomplish its object unless ample time is allowed for an inspection and revision of the list before election.

Let each party appoint a registrar and these two a third and let this board do the registering. There would not be much registration under such a system, and that little there might be would be purged out by publishing the list with an invitation to all interested to challenge any illegal name before the board. A democratic scrutinising committee would make wild work with bogus populist votes and vice versa.

I have recently been professionally engaged in a way that has required me to closely consider the subject of registration and I find the one great evil to be that names get upon the list without a genuine voter behind them.

It Receives the Official Endorsemen

The suit brought by Ohio's food commissioner against a Cincinnati druggist for selling Paskola on the ground that it was nothing but glucose, resulted in a great victory for Paskola and a verdict against the state.

the state.

During the course of the trial Professor Shaller, of the University of Cincinnati, testified that Paskola was not glucose, and even if it was, it would be harmless. He also bore witness to its activity as a di-

gestive agent.

Professor William Dickore, of the Miami college, testified to the same facts. So did Professor Schmidt, the chemist of the board of health; Professor William Hoffman and others.

A practical test was made in court show

ing the digestive action of Paskola on eggs and meats of various kinds, whereas glu-cose under precisely the same conditions and meats of various kinds, whereas gue-cose under precisely the same conditions produced no effect whatver. This test but confirmed the experts' statements and proved Paskoia to be of great value in indigestion and wasting diseases.

This verdict disposes of the malicious attack that has been made against Paskola by interested rivals, and suits have now been brought against the proprietors of a well-known emulsion of cod liver oil for having given wide circulation to a false formula and other misrepresentations researched.

garding it.

The animus of this attack will be the better understood when it is stated that Paskola is being largely used in the place of cod liver oil.

Another Child Burned to Death.

Dahlonega, Ga., November 25.—(Special.)—
The stage driver from this place to Gainesville, on the upper route, reports that another little negro child was burned up in a house near Squirrel creek. The mother had gone from home to do some washing, leaving her two little children at the house alone, when the house caught on fire. The largest one escaped while the other one perished in the flames. There is a colored woman on the outskirts of Dahlonega who frequently locks her two little children up in the house when she leaves home, and, indeed, the practice is not uncommon among the negroes generally. Another Child Burned to Death.

Fat Porkers.

Hawkinsville, Ga., November 25.—(Special.) Mr. Perry Roland, who lives in the eastern portion of the county, killed a hog last week that weighed 485 pounds. Warren Burch, colored, in the same neighborhood, also killed his pet pig which tipped the beam at 472 pounds. At 6 cents per pound these two porkers would bring \$57.42, nearly as much as three bales of cotton would sell for at the present prices.

The anniversary of Miss Mabel D. Jennings to Mr. L. W. Arnold on last Wednesday afternoon was a quiet, yet very beautiful affair: The ceremony took place at 4 o'clock at the residence of Mr. and Mrs. T. W. McArthur, 114 South Pryor street, the grandparents of the bride. Only relatives and a few intimate friends were present. The attendants were Miss Gertrude Jennings, sister of the bride, with Mr. J. B. Jackson: Miss Jeanie Mauck, with Mr. James E. Warren. The bride wore an ex-quisite traveling dress with a large and beautiful bouquet of bride roses, and the attendants were most beautifully attired in magnificent dresses to correspond, and lovely bouquets of Marechal Niel roses. After the ceremony, which was performed in a very impressive manner by Rev. Walker repast was served, and, at 6:55 o clock, the couple took the Central train for an ex tended trip through Florida. The bride tended trip through Florida. The bride is one of the sweetest and most Leautiful of Atlanta's young ladles, and is the caughter of Mr. and Mrs. W. S. Jennings, of Pomeroy, O., but has resided with her grandparents since a small chid. With very black hair, large blue eyes and fair com-plexion, she possesses beauty and charms, which make her a universal favorite. Her disposition is such as to insure the happiof the fortunate man who has won her heart, and who deserves to be hearti-ly congratulated on the priceless treasure has secured. The groom is the grand-of old Uncle Billy Arnold, the pioneer son of old Uncle Billy Arnold, the pioneer Methodist preacher in Georgia, who was, for nearly fifty years, presiding cider in the Georgia conference. Mr. Arnold is vice president of the Southern Shorthand and Business university, and is one of Atlanta's and progressive young busmost energetic and progressive young business men. He is a young man of n my personal graces, and possess a social meg-netism that renders him universally popular. There were many handsome and valuwill be at home to their many frie ter December 2d, at the Normandie, on Peachtree street.

A concert of phenomenal interest is announced by the Apollo Male Quartet under the auspices of the Business Women's Club, at the Freyer & Bradley recital hall, Wednesday, December 14th. Mr. I. M. Moyer, pianist, and Mr. Lucius P. Hills, reciter, both among the most popular ar-tists of Atlanta, will assist. The Apollo Male Quartet is composed of Mr. Will first tenor; Mr. John W. Lively, tenor; Mr. H. G. Simpson, baritone, and Mr. William Jessop, basso. They have been rehearsing together for about eight months and have acquired a fine reper-toire, which they render in a splendid manbut have made but two public appearances, at the chautauqua last summer. They have, however, a fine reputation in many circles where they have sung privately. The individual members are among the best known of the musicians of the city, and their ensemble work, the result of frequent rehearsals, is extremely effective. Mr. Simpson, who is always welcome on any programme, will play a violin

The Business Woman's Club, for whose benefit the concert is to be given, has always been very successful in similar affairs given under their management, and there is no doubt of the success of their venture. They have become a powerful organiza-tion, with the most practical and useful objects, and they are deserving of the good fortune which attends their undertakings. The programme of the concert will in-clude many numbers of the highest inter-

The marriage of Miss Maude Hall and Mr. Robert Wiley was witnessed by relatives and a few friends on last Wednesday evening, at the residence of the bride's mother, at 7:30 o'clock, Rev. Walker Lewis officiating. The bride looked beautiful in a traveling gown of gray cloth trimmed with ceris velvet and carried La France roses. Miss Bertie Wiley and Mr. Charley Wiley, sister and brother of the groom, were the only attendants. Refreshments were serv ed after the ceremony and at 9 o'clock the young couple left for Richmond, Va., the bride's former home. A number of elegant presents were received. Mr. Wiley is a successful young business man and a member of the Number Control of the Number of the Nunnally Company. Mr. . Wiley will be at home to their friends after December 1st, at 224 East

A wedding of unual interest was that which occurred at the Methodist church in Elberton last Wednesday afternoon at 2 o'clock, uniting Mr. Albert L. Day, of this city, and Miss Julia James, of Elberton, in the holy bonds of matrimony.

The wedding was one of the prettiest Elberton has witnessed for a long time, and the many friends of the contracting parties were gathered to witness the heapy.

parties were gathered to witness the happy event. Messrs. L. M. Heard, H. L. Cleve-land, J. F. Heard and J. Y. Swift acted as ushers. The bridal party entered the church after the ushers and marched down to the altar. Miss Hattle Allen was the maid of honor. The bride wore a beautiful traveling suit and looked all loveliness, carrying in her hand a pretty bouquet of bride roses. In a beutiful and impressive manner Rev. J. H. Marshburn conducted manner Rev. J. H. Marshburn conducted the ceremony. There were many wedding gifts of rare beauty, among which were the exquisite earrings given the bride by the bridegroom, the beautiful diamond broach given by Mrs. Day, mother of the bridegroom, to the bride and the \$1,000 check, which was the gift of the bridegroom's father. The happy pair will return to Atlanta soon and will reside with the brother of the bridegroom at his residence, 132 South Pryor street.

Their many friends give them with the fervor of affectionate hearts their congratulations and best wishes.

The engagement of Mr. F. O. Foster and Miss Annie Adair is announced and the wedding will occur some time in the early part of the year. The ceremony will be a rather quiet one at the home of the bride in West End but it is one in which all Atlanta society will take a deep interest. Miss Adair is well known here and there never was a girl who is more universally popular than she. Indeed she is one of the few wo-men whom one can describe as being with-out an enemy, and in her case this does not mean, as it so often does, a lack of force and individuality. She has plenty of both, being blessed with a nature steadfast and entirely lovable, and an intellect that, for depth and quickness cannot be excelled. She is extremely lovely also in personal appearance, and the man who has won her is fortunate indeed. Mr. Foster came here some years ago as the southern representative of the White Dental Manufacturing Company. The position was, in itself, proof of his fine business ability, and he has carried on the business with the utmost success. He is a cultured and refined gentleman personally, and he has had the finest intellectual advantages.

The committee has taken hold of this work for the woman's building with the greatest enthusiasm, and the exhibit will be one of great beauty and interest.

The little folks who are to take part in the brownie opera to be given on December 20th for the benefit of the woman's building are very much excited over the affair, which will undoubtedly be one of the most unique and lovely entertainments ever

The presentation will be highly artistic, for the costumes, scenery, etc., are all to be sent from New York, and it will compare very favorably with the brownies now at the Fourteenth street theater. Of course it will not be on so grand or so brilliant a scale, but it will be a beautiful and delightful performance, which every child in Atlanta and the grown folks, too, will enjoy immensely.

Shelby, Ala., November 25.—(Special.)—Invitations are out to the wedding of Miss Susan Elmina Clarke, of this city, to Mr. James William Warner, of Atlanta, which will occur at the Congregational church of Shelby on Thursday, November 29th. Miss Clarke is the daughter of Rev. A. T. Clarke and one of the most lovely and popular young girls in the state. Mr. Warner is a rising young man who stands high in the business and social circles of the Gate City.

Dalton, Ga., November 25.—(Special.)—One of the most enjoyable and profitable meetings of the season was held by the Lesche at the home of Rev. J. B. Craighill one evening last week. The history lessor was "Colonization of New Hampshire, Maine. Vermont and Connecticut." Strong views were read by the members on the following subjects: "History of Tammany." "Dr. Parkhurst's Crusade Against Tammany." "A Democratic View of the Recent Election." "A Republican View of the Recent Election."

#### WHERE TO GO.

Many Attractive Routes of Travel Offered by the Southern Railway.

With many people, where to go for an outing is an interesting question. At this season Florida is a most attractive spot and the superior schedules and facilities of the Southern railway make it an easy place to reach. The new winetr schedules of the Southern are better than ever before offered for Florida travel and many people are already going down to Florida to enjoy the fine hunting and fishing. The Southern railway is not only the best route to Florida but his also the only through Pullman car routes to New York, Cincinnati, Kansas City and Memphis. The through Pullman car service of the various routes of the Southern railway is most extensive and accommodating to the traveling public. fered by the Southern Railway.

"Life in Dixie During the War."

'his is the title of a book which, though written in the narrative style, is a true picture of the stirring scenes of 1861 to 1865, as enacted in and around Atlanta. No more graphic portrayal of home life in confederate days has ever been written. Real dates and the real names of persons and places are given, and real scenes are described in vivid style. It is a prettily bound volume of 200 pages and is for sale at the Columbian Book Store, SI Whitehall street, Afianta.

Orders will also be promptly filled by addressing the author, Miss Mary Gay, at Decatur, Ga. "Life in Dixie During the War."

#### MOUNTAINS OF GOLD

May Be Saved to the People of the South.

If all the money sent north for life insurance was heaped together it would make a mountain of money. About \$20,000,000 is sent from the sbuth annually for life insurance.

The miraculous growth of the Bankers' Guarantee Fund Life Association, of Atlanta, is a sufficient evidence that their plan of insurance is what the southern business and professional men want. The Bankers' have placed on their books over \$750,000 accepted insuranct and have been in business only about four and one-half months.
